THIRTEENTH YEAR. NO. 145.

EAST LIVERPOOL, OHIO, FRIDAY, NOVEMBER 26, 1897.

TWO CENTS

LOVERING LASHED.

Judge Advocate Hunt Severely Roasted the Captain.

The Case Did Not Require Such Inhuman Treatment of Private Hammond-Neither Did the Rules Allow It. such Action Damaging to the Army.

CHICAGO, Nov. 26.-In the Lovering courtmartial at Fort Sheridan, Lieutenant Colonel Hunter of Fort Snelling, the department of Dakota, acting as jydge advocate, severely arraigned Captain Lovering for his treatment of Private Charles Hammond. When the testimony was all in and Attorney Blair had addressed the court in defense of Captain Lovering's action, Judge Advocate Hunter arose. He reviewed the general evidence against Lovering, saying that the testimony showed beyond doubt that Lovering, as officer of the day, kicked Hommond, prodded him with his sword and cursed him.

"Gentlemen, I submit that in our military community anything in the mature of punishment should conform to law," he continued, "and that a general use of arbitary power or punishment without trial is calculated to basten our disbandment as an organization not restrained by law and in oppo-sition to the spirit of our free institu-

Between the officers who exercise power in the manner the accused did and the enlisted men who are fiable to become their victims there can be no other relation except that of master and slave. The exercise in the service of power and means, such as the evidence shows the accused to have em- adjourned. ployed in executing such an order and to have Private Hammond brought before the summary court, would necessarily result in our officers owning the enlisted men. There would then be little necessity for military tribunals and judge advocates, for our system of discipline would be a revival of the one in vogue before the civil war on the plantations of the south, where the right of the master to the obedience and submission of his slave in all lawful things was perfect, and the power belonged to the master to inflict any punishment on his slave not affecting life or limb which he might consider necessary for the purpose of enforcing obedience.

Colonel Hunter further said: "If may with impunity order any punishment he pleases to be inflicted on a seldier, you reduce enlisted men to a condition of servitude. That is what is meant by the false doctrine of being masterful. But it is the law that should be our master. There are rules published for the guidance of those who may command as well as those who may serve.

"That Hammond should have been produced in court I do not deny, but that his disobedience and stubbornness justified his being roped and dragged there, and in his prostrate, helpless condition kicked and prodded with a sword, I do most emphatically deny.

"The position in which the accused was placed by the disobedience of Hammond does not appear to have been a perilously trying one, for he had about him in the guard soldiers who were able to lift Hammond and carry him into court. The conjecture does not appear to have been so extraordinary as to justify a military officer either making a mistake of judgment or losing his temper. The law military makes no allowance for the infirmities of human temper. It perceives that loss by soldiers of self control is loss of power to command respect. No circumstances of irritation will justify a soldier in breaking from the established rules of discipline."

In concluding Colonel Hunter said: "In this trial I think there is something more than a serious accusation involved. I think the reputation of the army officers for good judgment, for command of self, for humanity and just consideration is also on trial here. This is a time of peril to your order and to your tribunals. I think the things which the accused has done tyrannicarly ought to appear to you who have heard them just as bitter and scandalous as they did to him that felt them. The finding rendered by this court will live long after taps have been sounded over the graves of the men composing the court."

The verdict has been forwarded to the secretary of war. The court held a secret session, at which the verdict was made and dispatched to Washington. It is the general opinion that Captain Lovering will meet with nothing worse than a reprimand. The finding is always a secret one, being forwarded to the commanding officer of the department. From General Brooke it will be sent to Washington, where it is discretiouary with the military authorities to give it out for publication.

THE PRESIDENT IN GOLD.

A Statue Worth Over \$1,000,000 For

Paris Exposition. New York, Nov. 26.-Ada Rehan in silver is to be outshone by William Mc-Kinley in gold. The added fame which the actress acquired by posing for the Montana statue of solid silver exhibited at the World's fair in 1893 is to be ap

proached, if not ecupsed, by the president of the United States, who will furnish the figure for a lifesized statue of solid gold.

This will be the most costly lump of precious metal the people of the modern world have ever seen, so says F. D. Higby of Chicago, who has been relained by western millionaires to furnish such a statue for exhibition at the COMPARED HIM TO A SLAVEDRIVER Paris exposition in 1900. Mr. Higby was in the city on his way to Washing-Kinley to pose for the figure. It will contain bullion worth \$1,000,000. It may be first exhibited at the Pan-American exposition, to be held on Cayuga island, in the Niagara river, in 1899.

MORE RIOTING AMONG STATESMEN.

Disgraceful Actions Resumed In the Austrian Congress at Vienna.

VIENNA, Nov. 26.-When the lower house of the reichsrath reassembled, after adjourning from the scene of unprecedented disorder, noted in these dispatches yesterday, all the ministers were present and the approaches to the presidential tribune were blocked, doors having been erected since the disgraceful fighting in and about the tribune and throughout the house.

The entrance of the president of the chamber, Dr. Abrahamovics, was the signal for loud and ironical salutations, which were followed by vehement leftists shouts of "shame."

Dr. Abrahamovics made an attempt to speak, but Dr. Wolff, the German Nationalist leader, interrupted him by shouting: "Someone else must take the chair, not this swindler.'

Amid great uproar a measure was passed suspending members without pay for uproarious conduct.

A number of deputies then began clambering upon the president's platform, whereupon he seized his bell and left the house.

After a short interval he returned and began to address the chamber, but his voice was drowned in a torrent of leftists' yells and shouts of "get out" and "shame." Finally the sitting was

SHOTS INTO HAVANA.

Rebels Invaded Casa Blanca and Fired at the Palace, Under the Guns of Cabanas and Moro-Scheme to Rescue General Rivera Failed.

NEW YORK, Nov. 26.—News comes from Havana that Brigadier General Rafael de Cardenas and 50 rebels entered Casa Blanca on horseback, and at sold to a syndicate including in its the end of four hours each man led out membership Cornelius Vanderbilt, H. of town a horse with one extra he had McK. Twombley and H. Seward Webb, appropriated, laden with clothing, pro- a tract of coal and timber lands in the visions, silver plate and considerable northeastern part of West Virginia. you establish the fact that an officer money. Before they left they fired The same people bought other smaller at the palace in Havana, then coolly retired to a friend's house inside the Spanish lines and took supper previously ordered. All this was under the guns of Cabanas and Moro.

Spanish authorites attempt to make light of the affair, but at the same time a reporter for La Lucha, who wrote up and attempted to publish the facts in the case, was arrested and is still in communicado.

It is learned from an inside source that the ob ect of the rebels was to effect the release of General Ruis Rivera and hang a citizen named Fumiero who is known as a spy. They failed in the first only because of some misconception regarding the appointed time on the part of confederates within the prison with whom arrangements had been made to admit the raiders into the fortress. Fumiero managed to escape across the harbor.

MINISTER DE LOME PROTESTED.

Did Not Want Hannis Taylor to Lecture In the Catholic University.

NEW YORK, Nov. 26. - According to a Washington correspondent, Senor de Lome, the Spanish minister, protested to the apostolic delegate, Mgr. Martinelli, against the authorities of the Catholic university allowing Hannis Taylor, former minister to Spain, to lecture in the university. The complaint was merely verbal and was sent

through a secretary. Senor de Lome, it is understood, contends that a papal university should not invite to its hall an enemy of Spain, who comes to speak against its government and people. Mgr. Martinelli, it is said, has no jurisdiction in the case, and took no steps regarding it.

SPANISH FRIVOLITY.

Placing of Dynamite In U. S. Consulate Called a Joke.

HAVANA, Nov. 26.—The tube reported to have contained dynamite which was found by a man subsequently arrested by the private watchman of the American consulate building, near the door of the consulate, is classed in official circles as being nothing more than a joke. The man arrested is believed to be the individual who placed the tube where it was found. But in order to guard against any possibilities, the Spanish officials are taking precautions to guard the United States consulate general, Fitzhugh Lee.

Dr. Miner Raymonu Dead.

CHICAGO, NOV. 26.-Dr. Miner Ray. mond, one of the founders of Northwestern university, Evanston, Ills., is

Will Not Agree to Stop Pelagic Sealing.

A REPLY SENT TO GEN. FOSTER.

However, the Dominion Government Has Made an Atternative Proposition, Which Can Be Laid Before Congress In Time to Deal With Pelagic Sealing.

OTTAWA, Nov. 26.—A reply has been prepared by the Dominion government and forwarded to Washington in respect to the negotiations which are now going on between both countries. The government will not say what the reply is until it reaches Mr. Foster at Washington, but it is understood that it is a refusal to stop pelagic sealing for a year, as the United States requested. The whole question depended upon this and therefore it would appear that the negotiations are to fail in their object.

However, there is a report that the Canadian government has proposed an alternative proposition for the consideration of the United States which could be laid before congress at its next sitting and passed in time to deal with pelagic sealing and the questions of dispute next season.

SOFT COAL MONOPOLY.

The Vanderbilts Aiming to Control the Markets Both East and West From the Ground to Final Delivery-Will Extend Hocking Valley Railroad.

CHARLESTON, W. Va., Nov. 26.-The Vanderbilt interests have a scheme on foot aiming at the control, through the Chesapeake and Ohio railroad, of the soft coal markets of both the east and west. Every part of the enterprise, from the ownership of the coal lands to the final delivery of the product will be managed by one head, representing one

About two months ago the announcement was made by Hon. John T. Mc-Graw of Grafton, W. Va., that he had two volleys across the harbor entrance tracts, making their holdings nearly 500,000 acres.

Railroads now controlled by the syndicate will be completed to these coal lands, connecting them with the Chesapeake and Ohio, and through it with the east and west.

It is also stated that the Vanderbilt interests have secured control of the Hocking Valley road and it will be extended to Huntington, W. Va. !

AIRSHIP TO KLONDIKE.

Maxim Says It Will Carry a Ton of Provisions and Passengers.

SAN FRANCISCO, Nov. 26.-Hiram S. Maxim, superintendent of construction of the Atlantic and Pacific Aerial Navigation company, announces that the company now has in course of construction an airship in which it is expected to make the trip to the Klondike. He said: "When everything necessary is on board the ship will weigh 5,000 pounds and we shall take on board about one ton weight of passengers and provisions. The dimensions of the vessel will be: Cylinder, 38 feet 2 inches in diameter and 90 feet in length; length of forward cone, 50 feet; length of after cone, 45 feet; total length, 158 feet. The space occupied will be 106,-000 cubic feet. The propelling power will be a 106-horse power naphtha engine, which will be made out of aluminum as far as that metal can be used, and will weigh complete 900 pounds.

"The gasoline will be stored in tanks in the cases, which will contain sufficient quantity to drive the vessel around the earth without replenishing the tanks. The skin of the ship will be double and the intermediate space will be filled with hydrogen gas. This gas will be confined in separate compartments and will be in the upper part of the cylinder and in the cones

"We expect to attain a speed of 100 miles an hour without straining our When finished it is estimated that

the ship will cost \$15,000.

REACHED FOR OVER \$42,000.

A B. & O. Passenger Caught a Porter

Trying to Rob Him. St. Louis, Nov. 26.-A. E. Hill, a broker of Providence, a passenger on the Baltimore and Ohio train arriving in St. Louis from the east, as soon as and protect the United States consul the train reached Union station, caused the arrest of Pullman Porter Pitts. At the four courts Mr. Hill related this story: "Just after the train passed Odin, Ills., the porter pulled the curtain aside and reached into my berth. He took \$10 out of my trousers pockets and then thrust his hand into my inside | Michael's Chicago indoor record.

coat pocket, where I had an envelope containing \$42,000 in cash and checks. I awoke just in time to save the envelope. I grappled with the negro and the encounter attracted the attention of the Pullman conductor, J. B. Hodges. He ordered the negro to return the \$10 he had taken."

SNUBBED BY DR. NANSEN.

Manager Told Prominent St. Louis People That Receptions Hurt His Lectures.

St. Louis, Nov. 26.-Dr. Nansen, the arctic explorer, who lectured to a crowded house at Music hall on his travels in the far north, deliberately snubbed a committee of prominent officials of the municipality and federal government and gentlemen in private life, who called upon him at the Planters hotel to extend certain courtesies.

Among the more prominent members of the committee were: Mayor Henry L. Zeigenhein, ex-Secretary of the Interior John W. Noble, ex-Secretary of the Interior David Francis, United States Circuit Judge Amos M. Thayer, Colonel Nathan Cole, Judge Klein Prof. C. M. Woodward of Washington university. Superintendent Solden of the public schools and Bryan of the high school, the venerable Mr. Gray of the Academy of Science, Dr. Emil Pre-torious, editor of The Westliche Post Frederick L. Judson and Paul F. Coste, president of the school board.

Manager Hurd charged that the free reception of Dr. Nansen at the high school had detracted from the attendance at the lecture.

Members of the committee deny that Nan en snubbed them He later attended several receptions.

BUS DR VER KILLED.

Atlantic City Man Smothered In the Mul Under His Horse.

ATLANTIC CITY, Nov. 26,-An awful fate befell Joshua Parker, better known as "Nick" Parker, of this city. Pinned down by his horse, which had fallen on him, he was smothered in the slimy mud at the bottom of a creek near Gardner's canal.

Daniel Headley, a boat builder, saw a bus in a 1 odd position in the creek. He investigated and found that the horse was lying in the water quite dead. Headley then made a search for the driver, and in a moment more he discovered the unfortunate man, half buried in the mud beneath the body of his animal. Help was summoned and the body dragged out, but life was ex truct and had apparently been so for some time. The body was immediately recogn zed as that of Parker.

It is supposed that Parker, while on his way home, fell asleep and that the horse wandered out of its way and fell into the ditch. Parker, awakened by the animal's floundering. probably got out to help the beast and was thrown into the mud with the horse on top. Unable to help himself. the poor fellow was suffocated and the rising of the tide soon covered him and his horse.

A STARVING MAN'S DEED.

Smashed a Plate Glass Window, So He Would Get In Jail.

NEW YORK, Nov. 26.-An iron bolt was hurled through the large plate glass window in the store of Hamilton Noves & Co., corner of Sixth avenue and Twenty-third street, by Frank Brower, a cooper of Albany. He explained to the police that he had smashed the window because he was unable to get work and was starving and understood that in prison he would be well fed and given a place to sleep. Brower was locked up on a charge of attempted burglary, which will be changed to malicious mischief

REVOLT AGAINST TURKEY.

Severe Fighting Occurs Between Albanians and Sultan's Soldiers.

VIENNA. Nov. 26 .- A dispatch received here from Belgrade, Servia, announces that 5,000 Albanians, belonging to the districts of Ipek and Diakova, are in full revolt against Turkey. A fight occurred between the Ottoman troops, dispatched to Uskub from Salonica and Monastir, and the Albanians. The engagement took place near Diakova and both sides lost neavily.

Hired For an Awful Crime.

LAMAR, Mo., Nov. 26.-Sheriff Livingston has returned from Lebanon, Mo., with David Monkster, wanted for criminal assault on Mrs. Jacob Resh, nine miles south of here, two weeks ago, when her face was burned with carbolic acid. When the mob swung up Simpson and Kaderty, who wore released and are now on trial, they claimed they hired Monkster and Avery to commit the assault. Avery cleared himself of the charge.

Fire at Negro University.

Tougaloo, Miss., Nov. 26.—Fire has destroyed the dormitory of the Touga-loo negro university. Fortunately the students were all at prayer meeting, so no one was injured. Forty-three students and six teachers lost their entire personal effects. The loss is estimated at \$20,000.

Michael Beat Starbuck.

New York, Nov. 26.-Michael beat Starbuck at Madison Square Garden by 80 laps in a distance of 25 miles. Time, 50 minutes 29 1-5 seconds. This beats

TWO GIRLS DROWNED.

Horse Dragged Their Vehicle Over Bridge Railway.

MOTHER IN SERIOUS CONDITION.

Animal Became Frightened and Ran Away - Mother Rescued, but Help Came Too Late to Save the Girls. Father and Sons Prostrated.

MIDDLETOWN, Nov. 26 .- Misses Mary and Katie Seaman have been drowned and their mother is in a dangerous condition as the result of a runaway. They were driving across a bridge that spans the hydraulic north of this city when their horse became frightened and plunged over the sideguard of the bridge into 15 feet of water. The ladies went down with the horse and the springwagon. The screams of the ladies brought help to the scene, but not in time to save the daughters, whose dead bodies were recovered.

The mother was resuscitated with great difficuly and is still in a serious condition. She does not know that her daughters are dead and will not be advised until she gets better. The father of the young ladies is a prominent farmer. He and his sons are prostrated over the condition of Mrs. Seaman and the loss of Mary and Katie.

Want a Mckinley Avenue.

SPRINGFIELD, Nov. 26 .- Notices have been published by City Clerk Samuel J. Wilkerson that some time after the meeting of the city council of Dec. 7 probably at the first meeting after that time-a petition to change the name of a port on of Brown street to McKinley avenue will be brought before council for action. The petition is presented by Messrs. Patrick Bolan and Patrick Mulcahy. The part of Brown street which is to be named McKinley avenue extends from Lincoln avenue to Free-

Convict's Thanksgiving Gift.

COLUMBUS, Nov. 26.—Colonel J. Linn Rodgers, secretary to the governor, in accordance with the good old custom, went to the penitentiary and personally handed the Thanksgiving pardon to the lucky one of the 2,200 convicts. The recipient of the governor's clemency was William Greaver, a Fayette county man, who has spent 13 years in penitentiary on a life sentence for the killing of Floyd Brown in 1883. He has been promised a steady job by the Brown-Hinman company, prison contractors.

Farmer and Family Abused.

HOLGATE, Nov. 26 .- The house of F. L. Cline, at Gallup, a small station on the Detroit and Lima Northern railroad, was entered by three masked men, who held and searched Mr. Cline. They secured nothing, and, after having bound and gagged the members of the family, they ransacked the house. The men were frightened away by the coming of a neighbor.

Took a Drink and Died.

WARREN, Nov. 26 .- After being out nearly all night Samuel Flannagan. colored, entered a saloon, and after taking a drink, sat in a rear room. Three hours later he was found dead on the floor. Alcoholism was the cause. He leaves a family.

Must Now Use Coal.

FOSTORIA, Nov. 26.-Fostoria once had the distinction of having the best regulated system of natural gas in the country. The North Ohio Natural Gas company ordered gas turned off the lines Dec. 31. The city will be given summer service.

Is jured by a Boar.

BELLEFONTAINE, Nov. 26.-Mr. Jacob Lenhardt, a prominent farmer, while removing the tusks from a boar, had the animal turn on him and before help arrived he was frightfully torn. The man's injuries may prove fatal.

ENGLAND'S CLAIM CONFIRMED.

Evidence Secured Damaging to Venezuela In the Boundary Dispute.

LONDON, Nov. 26 .- A letter received here from Georgetown, British Guiana, announces that Great Britain's legal experts have unearthed in the colonial archives there a series of volumes containing a memoranda, giving a running history of the Dutch settlement of Guiana from the middle to near the close of the seventeenth century, fully confirming the British boundary claims.

The memoranda, it is added, were written or dictated by the commander of the settlement, the seat of the gov-ernment being the river Essequibo. They contain frequent references to trading expeditions to the Dutch depots on the Upper Cuyuni, to the Meruca and to all the Northwest country which the Venezuelans assert the Dutch never possessed.

Bryan to Give a Prize.

COUMBIA, Mo., Nov. 26 .- William J. Bryan has given to the Missouri State university \$250 which is to be used annually in awarding from a prize for the best essay on the science of govern-

The skin of the ship will be double and the intermediate space will be filled with hydrogen gas. This gas will be confined in separate compartments and will be in the upper part of the cylinder and in the cones.

'We expect to attain a speed of 100 miles an hour without straining our vessel.

When finished it is estimated that the ship will cost \$15,000.

REACHED FOR OVER \$42,000.

A B. & O. Passenger Caught a Porter Trying to Rob Him.

St. Louis, Nov. 26.-A. E. Hill, a broker of Providence, a passenger on the Baltimore and Ohio train arriving in St. Louis from the east, as soon as the train reached Union station, caused the arrest of Pullman Porter Pitts. At the four courts Mr. Hill related this "Just after the train passed Odin, Ills., the porter pulled the curtain aside and reached into my berth. He took \$10 out of my trousers pockets and then thrust his hand into my inside | Michael's Chicago indoor record.

coat pocket, where I had an envelope containing \$42,000 in cash and checks. I awoke just in time to save the envelope. I grappled with the negro and the encounter attracted the attention of the Pullman conductor, J. B. Hodges. He ordered the negro to return the \$10 he had taken."

SNUBBED BY DR. NANSEN.

Manager Told Prominent St. Louis People That Receptions Hurt His Lectures.

St. Louis, Nov. 26.-Dr. Nansen, the arctic explorer, who lectured to a crowded house at Music hall on his travels in the far north, deliberately snubbed a committee of prominent officials of the municipality and federal government and gentlemen in private life, who called upon him at the Planters hotel to extend certain courte-

Among the more prominent members of the committee were: Mayor Henry L. Zeigenhein, ex-Secretary of the Interior John W. Noble, ex-Secretary of the Interior David Francis, United States Circuit Judge Amos M. Thayer, Colonel Nathan Cole, Judge Klein. Prof. C. M. Woodward of Washington university. Superintendent Solden of the public schools and Bryan of the high school, the venerable Mr. Gray of the Academy of Science. Dr. Emil Pretorious, editor of The Westliche Post Frederick L. Judson and Paul F. Coste, president of the s hool board.

Manager Hurd charged that the free reception of Dr. Nansen at the high school had detracted from the attendance at the lecture.

Members of the committee deny that Nan en snubbed them He later attended several receptions.

BUS DR VER KILLED.

The Vanderbilts Aiming to Control the Atlantic City Man Smothered In the Mul Under His Horse.

> ATLANTIC CITY, Nov. 26 .- An awfu fate befell Joshua Parker, better known as "Nick" Parker, of this city. Pinned down by his horse, which had fallen on him, he was smothered in the slimy mud at the bottom of a creek near Gardner's canal.

Daniel Headley, a boat builder, saw a bus in a 1 odd position in the creek. He investigated and found that the horse was lying in the water quite dead. Headley then made a search for the driver, and in a moment more he discovered the unfortunate man, half buried in the mud beneath the body of his animal. Help was summoned and the body dragged out, but life was ex truct and had apparently been so for some time. The body was immediately recogn zed as that of Parker.

It is supposed that Parker, while on his way home, fell asleep in his vehicle and that the horse wandered out of its way and fell into the ditch. Parker, awakened by the animal's floundering. probably got out to help the beast and was thrown into the mud with the horse on top. Unable to help himself, the poor fellow was suffocated and the rising of the tide soon covered him and his horse.

A STARVING MAN'S DEED.

Smashed a Plate Glass Window, So He Would Get In Jail.

NEW YORK, Nov. 26.-An iron bolt was hurled through the large plate glass window in the store of Hamilton Noves & Co., corner of Sixth avenue and Twenty-third street, by Frank Brower, a cooper of Albany. He explained to the police that he had smashed the window because he was unable to get work and was starving and understood that in prison he would be well fed and given a place to sleep. Brower was locked up on a charge of attempted burglary, which will be changed to malicious mischief

REVOLT AGAINST TURKEY.

Severe Fighting Occurs Between Alban-

ians and Sultan's Soldiers. VIENNA. Nov. 26.-A dispatch received here from Belgrade, Servia, announces that 5,000 Albanians, belonging to the districts of Ipek and Diakova, are in full revolt against Turkey. A fight occurred between the Ottoman troops, dispatched to Uskub from Salonica and Monastir, and the Albanians. The engagement took place near Diakova and both sides lost neavily.

Hired For an Awful Crime.

LAMAR, Mo., Nov. 26.-Sheriff Livingston has returned from Lebanon, Mo., with David Monkster, wanted for criminal assault on Mrs. Jacob Resh. nine miles south of here, two weeks ago, when her face was burned with carbolic acid. When the mob swung up Simpson and Kaderty, who wore released and are now on trial, they claimed they hired Monkster and Avery to commit the assault. Avery cleared himself of the charge.

Fire at Negro University.

Tougaloo, Miss., Nov. 26.—Fire has destroyed the dormitory of the Tougaloo negro university. Fortunately the students were all at prayer meeting, so no one was injured. Forty-three students and six teachers lost their entire personal effects. The loss is estimated at \$20,000.

Michael Beat Starbuck.

New York, Nov. 26.-Michael beat Starbuck at Madison Square Garden by 30 laps in a distance of 25 miles. Time, 50 minutes 29 1-5 seconds. This beats

Horse Dragged Their Vehicle Over Bridge Railway.

MOTHER IN SERIOUS CONDITION.

Animal Became Frightened and Ran Away - Mother Rescued, but Help Came Too Late to Save the Girls. Father and Sons Prostrated.

MIDDLETOWN, Nov. 26.-Misses Mary and Katie Seaman have been drowned and their mother is in a dangerous condition as the result of a runaway. They were driving across a bridge that spans the hydraulic north of this city when their horse became frightened and plunged over the sideguard of the bridge into 15 feet of water. The ladies went down with the horse and the springwagon. The screams of the ladies brought help to the scene, but not in time to save the daughters, whose dead bodies were recovered.

The mother was resuscitated with great difficuly and is still in a serious condition. She does not know that her daughters are dead and will not be advised until she gers better. The father of the young ladies is a prominent farmer. He and his sons are prostrated over the condition of Mrs. Seaman and the loss of Mary and Katie.

Want a Mckinley Avenue.

SPRINGFIELD, Nov. 26 .- Notices have been published by City Clerk Samuel J. Wilkerson that some time after the meeting of the city council of Dec. 7probably at the first meeting after that time-a petition to change the name of a port on of Brown street to McKinley avenue will be brought before council for action. The petition is presented by Messrs. Patrick Bolan and Patrick Mulcahy. The part of Brown street which is to be named McKinley avenue extends from Lincoln avenue to Freeman street.

Convict's Thanksgiving Gift.

Columbus, Nov. 26.—Colonel J. Linn Rodgers, secretary to the governor, in accordance with the good old custom, went to the penitentiary and personally handed the Thanksgiving pardon to the lucky one of the 2,200 convicts. The recipient of the governor's clemency was William Greaver, a Fayette county man, who has spent 13 years in the penitentiary on a life sentence for the killing of Floyd Brown in 1883. He has been promised a steady job by the Brown-Hinman company, prison contractors.

Farmer and Family Abused.

HOLGATE, Nov. 26 .- The house of F. L. Cline, at Gallup, a small station on the Detroit and Lima Northern railroad, was entered by three masked men, who held and searched Mr. Cline. They secured nothing, and, after having bound and gagged the members of the family, they ransacked the house. The men were frightened away by the coming of a neighbor.

Took a Drink and Died.

WARREN, Nov. 26 .- After being out nearly all night Samuel Flannagan. colored, entered a saloon, and after taking a drink, sat in a rear room. Three hours later he was found dead on the floor. Alcoholism was the cause. He leaves a family.

Must Now Use Coal.

FOSTORIA, Nov. 26.-Fostoria once had the distinction of having the best regulated system of natural gas in the country. The North Ohio Natural Gas company ordered gas turned off the lines Dec. 31. The city will be given summer service.

Is jured by a Boar.

BELLEFONTAINE, Nov. 26.-Mr. Jacob Lenhardt, a prominent farmer, while removing the tusks from a boar, had the animal turn on him and before help arrived he was frightfully torn. The man's injuries may prove fatal.

ENGLAND'S CLAIM CONFIRMED.

Evidence Secured Damaging to Venezuela In the Boundary Dispute.

London, Nov. 26 .- A letter received here from Georgetown, British Guiana, announces that Great Britain's legal experts have unearthed in the colonial archives there a series of volumes containing a memoranda, giving a running history of the Dutch settlement of Guiana from the middle to near the close of the seventeenth century, fully confirming the British boundary claims.

The memoranda, it is added, were written or dictated by the commander of the settlement, the seat of the government being the river Essequibo. They contain frequent references to trading expeditions to the Dutch depots on the Upper Cuyuni, to the Meruca and to all the Northwest country which the Venezuelans assert the Dutch never posssessed.

Bryan to Give a Prize.

COUMBIA, Mo., Nov. 26 .- William J. Bryan has given to the Missouri State university \$250 which is to be used annually in awarding from a prize for the best essay on the science of governTHE QUEEN TO AMERICANS.

A Letter Read at a Thanksgiving Dinner In London.

LONDON, Nov. 26 .- Over 300 American men and women and a few English persons celebrated Thanksgiving day by a dinner at the Hotel Cecil last night. The party included John Hay, the United States ambassador, and his wife and daughter; Henry White, secretary of the United States embassy; J. R. Carter, second secretary of the embassy; Lord Strathcona and Mount Royal of Canada, Archdeacon Sinclair, Louis Astor Chanlor and William Fulch, United States minister to Uru-

The list of toasts was long. The health of Queen Victoria was proposed by the chairman, who read a letter dated Windsor Castle, from Sir Arthur John Biggs, private secretary of her

majesty, saying:

"The queen desires me to beg that the American ambassador will be so good as to convey to the members of the American society in London the expression of her majesty's thanks for the beau ifully illuminated address of congratulations she received from that body. I have further to assure your excellency how deeply the queen was touched by the sentiments of sympathy with the enthusiasm of her own subjects on the sixtieth anniversary of her accession to the throne, which was contained in this address from citizens of the United States."

THANKSGIVING IN GERMANY.

Americans Celebrated at Berlin and Other Points In Europe.

BERLIN, Nov. 26. - Americans in Berlin met at a Thanksgiving banquet at the Kaiserhof. The occasion was very enjoyable.

United States Ambassador White opened the toast list in a felicitous speech and later, in reply to a toast to his health, indulged in humorous remby proposing a joint toast to Emperor William and President McKinley, which was received with great and iscences of former similar functions

The greetings of the assembly was cabled to President McKinley.

Mr. James C. Monaghan, United States consul at Chemnitz, responded to "The Day We Celebrate."

President Hyde of Bowdoin college responded to "Friends Across the Sea." Celebrations were held also at Stuttgart, Dresden and Frankfort.

"Many new tinplate mil's are projected, and will give work to thousands of additional men. Wages are not yet what they should be, but continued prosperity will bring advances. The important difference between our last Thanksgiving and this one is that there is work for all in the craft. Next year should bring us substantial pros-

THE PRESIDENT'S PASTOR.

He Declared Properity Was Here In His Thanksgiving Sermor.

WASHINGTON, Nov. 26 .- At the Metropolitan Methodist Episcopal church, where President McKinley atended services, the Rev. Dr. Johnston read the Thanksgiving proclamation of the president, and said that in issuing it the president showed piety and wisdom which augured well for the nation. "Prosperity is here," said the minister; "the light of better days is shining on us, though it will take time to recover from four years of distress, we are gain. ing. Times are hard, but not as hard as they have been, and the people should thank God that it is no worse after the experiences of the past four NOVEMBER years.

Dr. Johnston presented statistics to prove the assertion that prosperity had returned, referring to the large crops of wheat, cotton and other products.

President Attended Church.

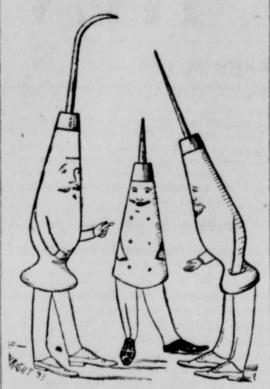

Washington, Nov. 26.—President McKinley attended Thanksgiving services at the Metropolitan Methodist church. He was accompanied to the church by his brother, Mr. Abner Mc-Kinley, Mrs. Smith and Mrs. Barber. Mrs. McKinley and Mrs. Abner Mc-Kinley were out driving for a short time during the day, as Mrs. Kinley was not feering well enough to remain at church during the services. white house was very quiet. The president's Thanksgiving dinner hour was at the usual dining hour at the white house, 7:30 o'clock.

President's Guests at Dinner.

WASHINGTON, Nov. 26.—The president and Mrs. McKinley had as their guests at Thanksgiving dinner the vice president and Mrs. Hobart, Ensign and Mrs. Smith, the latter a daughter of the late President Hayes, Mr. and Mrs. Abner McKinley, Miss Barber and Master Garret Hobart.

New York Had Two Holidays.

VERY FINE CONCERT

Was the One Given Last Evening by the

CONCERT COMPANY SWEDISH

The Asbury Brotherhood Are Being Congratulated Upon Securing the Attraction--Many People Enjoyed the Treat. Thanksgiving Services -- All the News.

The Swedish Concert company last evening drew a large crowd to the opera house, and the Asbury Brotherhood have occasion to feel proud of their success in securing the attraction.

The violin playing of Miss Bertha Webb was heartily applauded, while Miss Shoemaker won repeated encores by her unusually clever work as a reader. The solos of Mr. Laurin and Mr. McPherson were very good. The balance of the company also pleased the andience. The next number of the course will be given Dec. 9, when Dr. D. D. Muller will lecture at the Methodist Episcopal church.

Thanksgiving Services.

Union services were held in the United Presbyterian church, and were well attended. The sermon by Rev. J. S. Reager was very eloquent.

The News of Wellsville.

Buff Barr, of the shops, is off duty today owing to illness.

Fannie's Triumph.

Dainty little Fannie Grayson clapped her hands in ecstasy and danced and sang as if she had been enchanted. Then she ran to her sister Lillian and hugged her and said:

"Oh, I'm so happy!"

"What's happened?" Lillian asked. "Why, didn't you see Tom Taddington when he went away just now?" Fannie replied.

"Yes, what of him?"

'He asked me to be his wife. Oh, Lil, just feel how my heart flutters."

Lillian Grayson was tall and willowy, and she had a good sized muscle. Holding her sweet, tender sister off at arm's length, she exclaimed:

"Well, I don't see why you should go crazy over that. You surely didn't accept? Remember that we come of an old family. Our grandfather made enough money in the logging business to be able to retire when he was 47 years old, while Tom Taddington's mother had to teach school for a living until she got married. There is a social gulf between our families that never can be bridged.'

"Oh, bother your gulfs and bridges," cried Fannie. "I told Tom that I could not think of being his wife, and he started away swearing that he would either kill himself or propose to Clara Coulton. Think of it! If he kills himself for love of me, all the papers will want my picture and print columns and columns about it, or if he goes and marries Clara see what fun it'll be to tell the other girls how I drove him to it. Oh, I wish I were a man for about half an hour If I were, I'd celebrate by going out and smoking the biggest and strongest cigar I could get hold of."-Cleveland Leader.

EAST LIVERPOOL, O., FRIDAY, NOV. 26.

THOSE Democratic editors who have been crying calamity so long that they have forgotten the sound of a ripple of yesterday forgot to be thankful.

session of congress it will surprise some principle.

STARK county is complaining because the workhouse is an expensive institution. That should not be. When a county contains so many wicked ones that a workhouse is necessary, it should accept the condition and expect to pay for it.

PERHAPS the learned men who are predicting a short session of congress will acknowledge, when it is stretched into next summer, that as usual their forecast has slipped a cor. Some day they will learn that we do not have short sessions of congress.

THE first step under the Dingley tariff was the resumption of work in the manufacturing districts. That the movement would be followed by increased wages the Democrats have repeatedly denied with great glee, but they were mistaken. Already a large number of manufacturing concerns have made their employes happy, and, with the beginning of the new year, many more will have taken this, the second step in the Republican program.

DURING the months since the Dingley bill became a law it has been proved a number of times that the men who made it knew what they were doing. It not only answers the purpose for which it was intended, but the disputed clauses have been found to be perfectly safe so far as breaking them is concerned. When compared with the measure which bore the name of Professor Wilson, it is found to be a foeman worthy the assaults of the best legal talent in the land.

THERE ARE SOME GOOD MEN.

General Blanco is almost original. Finding by calculation, using Weyler's expensive experience as a basis, that it costs money to put down a rebellion in Cuba, he has determined to buy the leaders. Carefully selected agents have approached many of them, according to a story from Havana, and offers have been made that would ordinarily have turned their heads and compelled them to abandon their purpose; but, be it said to their honor, they spurned the Spaniard's gold and sent back his men with the statement that their appearance under similar conditions would be speedily followed by an execution with a trembling agent as the central figure. Blanco seems to be making the mistake made by Weyler. He does not understand that the Cubans are wedded to their cause, and will die before they abandon that for which they have already sacrificed home and civilization

Row In a Saloon.

LISBON, Nov. 26.—[Special]—Reddy Donnelly and Tom Scalley were brutally attacked in Jerry McCarty's saloon in Leetonia yesterday by two strangers, is not known how it originated. The men were cut with a razor, 70 stitches being put in Donnelly's face. The strangers escaped.

-Mr. and Mrs. F. Rodgers and Mr. and Mrs. Joseph Reed, of Salineville, were guests of Mr. and Mrs. E. W. Hill, of Seventh street, yesterday.

THE BOYS ARE FREE

Cumberland's Jail Could Not Hold Them.

PATTERSON REFUSED TO GO

Whitney and Pittenger, the Wellsville Men Charged With Cutting, With Intent to Kill, Succeeded In Sawing Their Way to Liberty--The Sheriff In Pursuit.

NEW CUMBERLAND, Nov.26.-[Special] -Whitney and Pittinger, the Wellsville men who are charged with cutting with intent to kill two railroaders at Healey's saloon last Monday night, and later were arrested in this place and held until the proper requisition papers could be obtained, secured their freedom at 3 o'clock this morning.

The men were confined in a cell at the jail, and Wednesday night were closely guarded. Last night there was no guard, and they took advantage of the occasion to saw their way to freedom. There was no one to annoy them, and long before morning they were gone. They endeavored to induce Patty Patterson, their friend, who is confined on a charge of larceny, to accompany them, but he refused. It is believed the saws were secreted in their clothes.

started in pursuit.

THE DIFFERENCE.

Some Men Are Not as Thankful as They Were Yesterday.

Mayor Gilbert heard a number of cases this morning.

Fred Snyder, charged with disorderly conduct, was released until his case can be investigated.

Slick Morley, charged with assault and battery by his wife, will be given a hearing tomorrow. A man nam named Stewart was fined

\$7.60 on a charge of disorderly conduct. William Call pleaded guilty to larceny and was fined \$15 and costs.

Chongeye Cairier was fined \$7.60 or 90 days.

Joe Kennedy for begging was given four months or \$7.60.

\$9.80,

Lack ef evidence caused the dismissal of the case of Charles Hutchison against Theo Pippin.

NEXT WEEK

Reverend Norris Is Expected to Give His Answer.

The people who are endeavoring to secure Rev. J. H. Norris, of Pittsburg, for a series of meetings in Wellsville, exweek. They believe that he will be with them for a week and possibly longer.

New Products of Wood.

It is not generally known that over 60 per cent of wood may be converted into liquid. The strongest hydraulic pressure would not squeeze one-half of 1 per cent of moisture from dry wood, but by putting the same material into an iron retort and converting it into charcoal by means of heat the gases and smoke, to the extent of fully 65 per cent of the weight of the wood, may be condensed into a liquid called pyroligneous acid, and from it are obtained wood alcohol, acetate of lime and wood tars. A cord of wood weighing 4,000 pounds produces about 2,650 pounds of pyroligneous acid When the escape was discovered and 700 pounds of charcoal. The pyro-Sheriff Wilkin organized a posse and ligneous acid from one cord of wood produces 9 gallons of 82 per cent crude wood alcohol, 200 pounds of acetate of lime and about 25 gallons of tar, besides 35 bushels of charcoal. After the pyroligneous acid is neutralized with lime the wood alcohol is distilled off, the lime holding the acetic acid in solution.

After the separation of the wood spirit the remaining liquid is boiled down in open pans to a sugar, which is dried, and becomes the acetate of lime of commerce. Acetate of lime is used for making acetic acid. Fully three-fifths of all the wood alcohol and acetate of lime produced in the world are made in the United States. Fully 15,000 acres per year are cleared for this purpose. Wood alcohol affords a perfect substitute for grain alcohol for manufacturing and mechanical purposes and at less than one-third the cost. It is used principally as a solvent in the making of shellac varnish, in making celluloid, photographic paper, etc. It makes many The case of Theo Pippin against beautiful dye tints. It is antiseptic and Charles Gyer was disposed of by Gyer much used for liniments and for skin being fined \$5 and costs, or a total of rubbing in bathhouses.—New York Ledger.

When Man Is Dangerous.

It is a singular fact, yet one substantiated by statistics, that most crime is committed in New York by men 29 years old. This is not only true of the lesser, but also of the greater crimes, although a man is presumed to be at that period of his life not only in the zenith of his physical powers, but also in full and complete possession of his mental strength, with a complete appreciation of pect to receive an answer from him next right and wrong and their respective consequences. This condition is a problem which has not been solved by the student of criminology, and one which is made the more complex by the fact that the ages of 21, 27 and 45 years nearly equal it, with the intervening years showing a far less percentage of

> It is indeed peculiar that the criminal tendency should be so strong at 29, with no such inclination, so far as criminal statistics show, in as great a degree for the succeeding 16 years and then another outburst of the animal in man.

This condition is found to be true by actual figures, and as all statistical computations at which average conditions are sought to be determined are arrived at by this method, so may the student of this subject as well as the insurance magnate who bases his rates on the general average of losses in proportion to the risks taken, and does so with full safety, employ it in solving the problem before him. - Chicago Times-Herald

THE BOYS ARE FREE

Cumberland's Jail Could Not Hold Them.

PATTERSON REFUSED TO GO

Whitney and Pittenger, the Wellsville Men Charged With Cutting, With Intent to Kill, Succeeded In Sawing Their Way to Liberty--The Sheriff In Pursuit,

NEW CUMBERLAND, Nov.26.—[Special] -Whitney and Pittinger, the Wellsville men who are charged with cutting with intent to kill two railroaders at Healey's saloon last Monday night, and later were arrested in this place and held until the proper requisition papers could be obtained, secured their freedom at 3 o'clock this morning.

The men were confined in a cell at the jail, and Wednesday night were closely guarded. Last night there was no guard, and they took advantage of the occasion to saw their way to freedom. There was no one to annoy them, and long before morning they were gone. They endeavored to induce Patty Patterson, their friend, who is confined on a charge of larceny, to accompany them, but he refused. It is believed the saws were secreted in their clothes.

When the escape was discovered Sheriff Wilkin organized a posse and started in pursuit.

THE DIFFERENCE.

Some Men Are Not as Thankful as They Were Yesterday.

Mayor Gilbert heard a number of

cases this morning. Fred Snyder, charged with disorderly conduct, was released until his case can be investigated.

Slick Morley, charged with assault and battery by his wife, will be given a hearing tomorrow.

A man nam named Stewart was fined \$7.60 on a charge of disorderly conduct. William Call pleaded guilty to larceny and was fined \$15 and costs.

Chongeye Cairier was fined \$7.60 or 90 days.

Joe Kennedy for begging was given four months or \$7.60.

The case of Theo Pippin against

Lack ef evidence caused the dismissal of the case of Charles Hutchison against Theo Pippin.

TALK OF A NEW

That Will Connect Toronto and East Liverpool.

A RICH MAN IS BACK OF IT

According to the Story Edward McElvaine, the littsburg Capitalist Who Is Interested In the Pottery, Has a Scheme and Is Interesting His Friends.

The last railroad story comes from Stenbenville, and is interesting because the project stretches along the river to this city.

According to the tale Edward McElvain, the Pittsburg capitalist, who is vice president of the American China company, and the recent purchaser of a large tract of land in Toronto, is back of the plan. It is said that he has interested a number of Liverpool men in the project. It is proposed to build a line along the river road to Wellsville, connecting all the sewer pipe and other manufacturing concerns. At Wellsville it would connect with the Liverpool line. According to the tale Edward McElpool line.

Some people believe the road should be built to Steubenville, but it is stated that Mr. McElvaine is interested in this city. Hence his desire to have it come this way. Surveyors have been at work along the road between Wellsville and Toronto, and it is now believed they have some connection with the project.

MUCH SICKNESS

Scarlet Fever, Typhoid and Diphtheria Are Now Prevailing.

Sanitary Officer Burgess yesterday fumigated a number of houses where there was contagious disease. A twoyear-old child of William Anderson, living near the light plant, is ill with scarlet fever. Maggie, the 15-year-old daughter of Jesse Colclough, of Sixth street, is ill with the same disease. A 7-yearold child of Mrs. Cunning, of Ravine street, is ill with diphtheria, and a Mr. Stoakes, of Avondale street, is ill with typhoid fever. The houses have been quarantined, and no serious results are anticipated.

STRIKING SERMONS.

The Pastor of the Christian Church on Revelations.

Professor O. S. Reed has been attracting wide-spread attention through the instrumentality of a series of sermons instrumentality of a series of sermons on the book of Revelations. He will speak from this basis on next Sunday night, and will follow the work up until he takes in the full book. The sermons attract large audiences and the subject matter is treated in an intensely interesting manner.

A Good Show.

The Dan R. Ryan company last evening, at the Grand, presented "Ingomar" to a packed house. The show was one of the best of the week, and the company as usual fully sustained their reputation of being the best repertoire company ever seen in the city. Tonight, "The Iron Master" will be presented, and it is safe to predict that it will be very good, as Mr. Ryan believes in commencing with the weakest play and improving with every night, instead of playing his best bill the first night.

In Second Place.

The official fielding averages of the Atlantic league, just published, places George Carey second among the first basemen. He is but two points behind Manager Wells, of the Richmond club, who did not participate in half as many games as Toadix.

The Price Is Higher.

A car load of onions was being sold in the lower yards this morning for 55 cents a bushel. This is an increase of 15 cents a bushel over the price of last year.

He Was Uninjured.

Henry Porter, of College street, while coming down the new steps at the opera house last evening, tripped and fell to the bottom. Aside from a few scratches he escaped injury.

BETTER LAWS FOR ALASKA.

The President May Make Recommenda tions In His Message.

WASHINGTON, Nov. 26.—The president in his message will, it is expected, devote more attention to Alaska than has been given to the big territory heretofore since its purchase.

It is known that the executive will recommend speedy legislation to secure the best possible government for Alaska, and that he will also take occasion to point out the difficulties which the people are under, and will urge that something should also be done to protect the property of the government. In this connection he will allude to the fact that the government is losing large sums because there is no way of protecting the timber from indiscriminate

HOW IT WAS OBSERVED

Thanksgiving Day Services Well Attended.

SUNRISE PRAYERMEETING

geverend Swift Delivers an Eloquent Address From the Text: "But Can Ye Not Discera the Signs of the Times"—Union services In East End.

The Thanksgiving day services held vesterday were well attended.

The sunrise prayer meeting drew a large number of people to the Methodist Protestant church, and was very interesting and instructive.

A large audience was present at the mion services held in the First U. P. church. The choir rendered several beautiful selections, and the sermon of Reverend Swift, of the Methodist Protestant church. was an eloquent one. He took for his text: "But can ye not discern the signs of the times," and touched upon the reasons for Thanksgiving in a logical way. The collection amounted to \$26.72, and was donated to the young ladies' home.

The union East End services were held in the Second M. E. church, and were very well attended. The address was delivered by Rev. A. D. McCullough, pastor of the Second Presbyterian shurch, and was an able effort.

The News of Lisbon.

Lisbon, Nov. 26.—[Special]—Sheriff Gill yesterday took John Mosby to the workhouse where he will serve 30 days for assault and battery.

Judgment was given John Unkefer against T. J. Stoffer for \$2.444 due on notes.

The following marriage licenses were issued:

W. P. Lewton and Carrie M. Johnson, Josiah Crowell and Laura Fultz, E. M. Jackson and Dora Powell, J. M. Spencer and Florence Ingledo, Benjamin B. Lower and Mollie E. Rymen, Alfred Hill and Sarah N. Bratt, M. Wheatley and Lizzie Simpkins.

On the River.

Business about the river yesterday was very quiet.

The only packets up were the H. K. Bedford and Lorena. Most of the tow-boats that went south the last rise are returning, but, as the river is falling, they will be compelled to tie in on the trip.

Indications for more rain are brighter, with a rise in the temperature. Marks at the wharf, 3.7 feet.

Church Meetings.

The cabinet of the Epworth League of the First M. E. church, failed to meet last Wednesday evening as was sched-

The trustees of the First M. P. church met Wednesday evening after prayer meeting. Only routine business was transacted.

The Grand Army.

A pleasant social will be held this evening at the rooms of the Grand Army. All members of the Grand Army and their wives, Women's Relief corps and husbands, Sons of Veterans and wives are invited to be present and enjoy the festivities. An entertainment will be given, and lunch will be served.

Closed the Deal.

Papers were signed Wednesday aftermoon which gave possession to George Meredith the Laughlin property situated in Broadway near Fourth street. The price paid for the preperty was not made public.

Get Your Photos

at Dick Edmonston's, in the Diamond. The finest and best pictures taken in the city of East Liverpool. It pays you to get the best, and Dick's prices are very reasonable.

A Banquet.

The Carrol club will the latter part of next month celebrate their second anniversary with a banquet. At least 150 plates will be laid and an enjoyable time is expected.

Will Eat Turkey.

James Ward and Charles Miller are opponents in a turkey eating match tomorrow afternoon. Both men are employed at the Sebring pottery.

Able to Be Out.

Roy Baxter, who was injured last Friday evening, was able to be out yesterday for the first time since he was burt.

-Mrs. J. H. Brittan returned to Bardett, N. Y., this morning. She was the guest of Mrs. C. E. Larkins.

D. M. Ogilvie & Co.

Kid Glove Special

SATURDAY

The colors are: English Reds, Browns, Black and White, with black embroidery. The quality is as good as we have often sold at \$1.00 per pair. The style two clasp, with heavy embroidery. The price is 75c per pair which will soon sell the gloves, although we have a full line of sizes at present. Try a pair of them. Other priced kid gloves, of which we have different styles and colors and a line of sizes, are \$1.00, \$1.25, \$1.50 and \$1.75 per pair. Woolen gloves at 15, 25 and 50c per pair. Mittens, woolen, at 10, 25 and 50c per pair. Kid Mittens for women and children.

BLANKETS AND COMFORTS.

A case of those 38c Blankets, cotton, of course, but good ones for the price. Other cotton blankets at 75c, \$1.00 and \$1.35 per pair.

Woolen Blankets

At \$2.10 and up to \$6.50 per pair. We can save you money on blankets.

Comforts

Good size and fair quality at 75c and \$1.00 each. The best value in our comfort stock is a number we have had but a few days, bought them below regular price, going to sell them cheap. They are made of silk aline, one side figured, the other side plain colors. The size is 71 inches by 82 inches. White cotton filled, nicely quilted, The price is \$2.25 each; they are worth more. Other priced comforts are \$1.50, \$1.75, \$2.00 and \$3.00 each.

HOSIERY.

One case of Misses' Hose—nearly all wool, ribbed, good wearing—sizes 5 to 8½, at one price, 25c. This is an excellent hose for the price. Misses' fleece lined hose at 15 and 25c per pair, all sizes.

WOMENS' FLEECE LINED HOSE.

A good fast black hose, all sizes, at 10c per pair. Plain and heavy ribbed hose, fast black, full size, excellent quality, at 25c per pair. Better grades fleece lined hose at 35 and 50c per pair. Woolen hose at 25, 35 and 50c per pair.

CLOAKS.

If you wisk a cheap cloak or a good coat for little money, see the line we are showing at \$4.75. It includes plain and rough jackets. Some are braided, others are plain; also capes in boucle fur trimmed, and capes braid trimmed. Better grade jackets at \$7.50, \$10.00, \$12.50 and \$15.00 each. Plush capes at \$5.00 and up to \$25.00 each. Cloth capes from \$5.00 to \$15.00 each.

Our line of Misses' Jackets is as yet complete. We have different styles in both plain and rough material at all prices, from \$4.50 up to \$10.00 each. Children's Jackets, all sizes, at \$2.50 and up to \$7.50 each.

HOW IT WAS OBSERVED

Thanksgiving Day Services Well Attended.

SUNRISE PRAYERMEETING

Reverend Swift Delivers an Eloquent Address From the Text: "But Can Ye Not piscera the Signs of the Times"—Union services In East End.

The Thanksgiving day services held vesterday were well attended.

The sunrise prayer meeting drew a large number of people to the Methodist Protestant church, and was very interesting and instructive.

A large audience was present at the enion services held in the First U. P. church. The choir rendered several beautiful selections, and the sermon of Reverend Swift, of the Methodist Protestant church. was an eloquent one. He took for his text: "But can ye not discern the signs of the times," and touched upon the reasons for Thanksgiving in a logical way. The collection amounted to \$26.72, and was donated to the young ladies' home.

The union East End services were keld in the Second M. E. church, and were very well attended. The address was delivered by Rev. A. D. McCullough, pastor of the Second Presbyterian church, and was an able effort.

EVENING NEWS REVIEW.

THIRTEENTH YEAR. NO. 145.

EAST LIVERPOOL, OHIO, FRIDAY, NOVEMBER 26, 1897.

TWO CENTS

THEY CURE BY FAITH

That Is the Claim, but It Is Yet to Be Proved.

INSTANCES WHERE IT FAILED

An Old Woman Believed She Would Eventually Regain Her Youth, and a Little Fellow Who Was a Cripple Thought He Would Be Well.

While it is generally known that there are people in this community who believe they can be freed from any bodily ailment through prayer, for Holiness Ward and his followers have often made the assertion, it is not a matter of general information that a number of persons not alone put their faith in the doctrine, but have gone so far as to test it, much to their own discomfort and

There was once an old lady, and it has not been so many months ago, either, who imagined her appearance was due more to the ravages of disease than the handiwork of time. Someone who heard her complain of her appearance at that time, and then listened while she recalled the days when she was pretty as any lovely picture, laughingly suggested that her years certainly sid not warrant so many wrinkles, and she was probably the victim of some insidious disease. She was intelligent enough to know that she was in her Esual good health, unusual, one knowing all the circumstances would doubtless say; but in this she saw an excuse for her sorrow, and she sought, as a natural consequence, a remedy.

Her friends consulted a physician, and he prescribed for her, but it did no good. The treatment was changed, with the same result. Almost disheartened, she seemed almost ready to accept the truth when she learned of the faith cure. That was what she, of all things, desired. It did not mean disagreeable talks with the doctor, nor did it involve the taking of medicine, not at all agreeable. She began. For days she would pray, not all the time, to be sure; but so often as to excite comment. At first she believed she was recovering, but despair soon seized upon her, and she almost gave up the task. At length her friends learned of the cause of her devotions, but all their arguments were without avail. She continued to believe that her faith would make her better-in other words, that it would make her young. It is not hard to believe that the wrinkles are still there, and that each day brings the good old soul nearer to the throne before which she so patiently and devoutly kneels.

But there is another class of faith curists; those who stoutly maintain that they do cure the lame and the halt and cure them better and easier than any practitioner with his herbs and tonics and careful instructions. A number of cases where their powers have been given a thorough test are reported, but in every instance the patient failed to realize that happy issue from his troubles so confidently expected.

dently expected.

One is a little boy in Wellsville. For many years has he been a cripple. Physicians could do nothing for him, and his case was observed as hopeless. Secretly the question of healing him through faith arose, and the praying is now in progress. His recovery is not expected by those of his familiar friends who have not embraced the belief. In it they see nothing but nonsense.

Wellsville, by the way, has perhaps produced more cases of that particular kind than any other town of equal population in this part of the country. A year ago several instances were cited where patients almost died because the only medicine they received was made up of the prayers of their friends. In one case the neighbors of the patient were so alarmed at the wan, pinched features of the little sufferer, that they threatened to notify the authorities if the practice was continued.

This city has had its season, and some professing the doctrine declare that they are increasing in number steadily. While this may be true, it remains to be told that the efficacy of the treatment can be seen in those afflicted persons who have submitted their pain-racked bodies to the tender mercies of the treatment. If there have been cures, the seeret has been religiously guarded.

EVENING NEWS REVIEW.

THIRTEENTH YEAR. NO. 145.

EAST LIVERPOOL, OHIO, FRIDAY, NOVEMBER 26, 1897.

TWO CENTS

THEY CURE BY FAITH

That Is the Claim, but It Is Yet to Be Proved.

INSTANCES WHERE IT FAILED

An Old Woman Believed She Would Eventually Regain Her Youth, and a Little Fellow Who Was a Cripple Thought He Would Be Well.

While it is generally known that there are people in this community who believe they can be freed from any bodily ailment through prayer, for Holiness Ward and his followers have often made the assertion, it is not a matter of general information that a number of persons not alone put their faith in the dectrine, but have gone so far as to test it, much to their own discomfort and deanger.

There was once an old lady, and it has not been so many months ago, either, who imagined her appearance was due more to the ravages of disease than the handiwork of time. Someone who heard her complain of her appearance at that time, and then listened while she recalled the days when she was pretty as any lovely picture, laughingly suggested that her years certainly sid not warrant so many wrinkles, and she was probably the victim of some insidious disease. She was intelligent enough to know that she was in her sual good health, unusual, one knowing all the circumstances would doubtless say; but in this she saw an excuse for her sorrow, and she sought, as a natural consequence, a remedy.

Her friends consulted a physician, and he prescribed for her, but it did no good. The treatment was changed, with the same result. Almost disheartened, she seemed almost ready to accept the truth when she learned of the faith cure. That was what she, of all things, desired. It did not mean disagreeable talks with the doctor, nor did it involve the taking of medicine, not at all agreeable. She began. For days she would pray, not all the time, to be sure; but so often as to excite comment. At first she believed she was recovering, but despair soon seized upon her, and she almost gave up the task. At length her friends learned of the cause of her devotions, but all their arguments were without avail. She continued to believe that her faith would make her better-in other words, that it would make her young. It is not hard to believe that the wrinkles are still there, and that each day brings the good old soul nearer to the throne before which she so patiently and devoutly kneels.

But there is another class of faith eurists; those who stoutly maintain that they do cure the lame and the halt and oure them better and easier than any practitioner with his herbs and tonics and careful instructions. A number of cases where their powers have been given a thorough test are reported, but in every instance the patient failed to realize that happy issue from his troubles so confidently expected.

One is a little boy in Wellsville. For many years has he been a cripple. Physicians could do nothing for him, and his case was observed as hopeless. Secretly the question of healing him through faith arose, and the praying is now in progress. His recovery is not expected by those of his familiar friends who have not embraced the belief. In it they see nothing but nonsense.

Wellsville, by the way, has perhaps produced more cases of that particular kind than any other town of equal population in this part of the country. A year ago several instances were cited where patients almost died because the only medicine they received was made up of the prayers of their friends. In one case the neighbors of the patient were so alarmed at the wan, pinched features of the little sufferer, that they threatened to notify the authorities if the practice was continued.

This city has had its season, and some professing the doctrine declare that they are increasing in number steadily. While this may be true, it remains to be told that the efficacy of the treatment can be seen in those afflicted persons who have submitted their pain-racked bodies to the tender mercies of the treatment. If there have been cures, the secret has been religiously guarded.

UNCLE SAM IS SHREWD

He Warns the Innocent of the Green Goods Man.

SPECIAL STAMPS FOR LETTERS

That Are Believed to Contain Nicely Worded Inducements Recently Sent Out by the Thousand to All Parts of the Country by Sharpers In Search of Money,

Although the most efficient men who earn their daily bread because of their ability to protect the interests of this great government, and shield its people from scores of sharpers who know not the honest sweat of toil, have spent years in running down and delivering over to justice gang after gang of what are known as green goods men, that nefarious class is more active than ever, and seems to be reaping a reward commensurate with its labors.

When times are hard and men are tempted by the stress of necessity to add something to their annual incomes, the green goods men reaps a harvest, and when times are good, and there is an abundance of money in the country, he goes after a different class, but as usual reaps his harvest. These latter are the people he is after at present, and doubtless his coffers are being filled, for his business seems to be taking on a decidedly prosperous air.

His last scheme is his best. Within the past few months hundreds of letters have been sent out from New York to the larger cities of the country. Now the supply of victims seems to be exhausted, and he is turning his attention to the smaller towns, manufacturing communities where there are well-to-do people with a desire to obtain sudden riches, even though the method might not be observed by justice with a smile. The government has heard of the trick, and the postal officials in New York have prepared a stamp notifying the person to whom the letter is addressed that the inclosure is probably a green goods circular and advising him to take it to the postmaster of his town, who will in turn forward it to the department. This stamp is placed on the suspected envelope, and the letter forwarded to its destination.

As yet it has not been learned that any of these letters have been received in this city, but the place is so well known that it cannot long escape the careful scrutiny of the sharpers. Watch for them, and if you receive any communication of that character, turn it over to Postmaster Miskall. He will take care of it, and he will not buy green goods either.

The letter now in use is an improvement over those we heard so much about a few years ago. Instead of being bungling, it is a carefully worded appeal to the cupidity of the man who receives it, a statement calculated to excite his desire for easily acquired wealth.

The writer presents himself as an expert engraver, with 22 years' experience in the government's service, and who was for 12 years superintendent of one of the largest bank-note companies of the country. During his lessure he took up the task of duplicating ones, fives and tens, and in consequence he has perfect duplicates. Then he states that he knows the man to whom he writes will look upon him with suspicion, but he appeals to him to accept it as a plain business proposition and act accordingly, knowing that the writer would not address a man of his intelligence with a petty little swindling

Satisfied with this explanation he consumes a portion of his paper in abusing other green goods swindlers who have so long bungled along in the business, finding space, however, to inject a little argument in favor of counterfeit money in general. The whole thing ends with the request that the recipient wire a given address and he will be rewarded, by a sample of the writer's work, who will arrange for the delivery of stock if it is required, a note being added in which he trusts as an honorable man nothing will be said to anyone concerning the communication.

The letter is calculated to catch the unwary, and is prepared so well that some men, who know not the wiles of the trick, have doubtless been caught.

A Pleasant Affair.

RETAIL TRADE IS GOOD

The Department Stores Are Rapidly Devouring

THE SMALL CROCKERY CONCERNS

New York Should Become a Great Center For the Manufacture of Crockery and Glassware-The Market Review Shows That the Output Is Large.

The New York letter to the China. Glass and Lamps this week says:

"The retail trade in earthen ware, glass and lamps is in a healthy condition, particularly in the big department stores. As a matter of fact, the small concerns of old times, where nothing is sold except crockery, table glassware, lamps, globes, etc., have been almost entirely wiped out in the line mentioned. In the entire territory of the Greater New York the number of small crockery stores can be almost counted on one's fingers. It is the old Biblical story modernized: the fat kine have got rid of their rivals, the lean kine, by the simple process of devouring them."

Continuing, the writer states that there is no reason why New York should not become a great center for the manufacture of pottery and glassware, but says:

"Pittsburg will very likely continue to hold its pre-eminent position as a glass manufacturing center, and Trenton and East Liverpool will retain their importance in the pottery industry, but it is not probable that New York, where such splendid opportunities exist, will remain long in the background in respect to the manufacture of earthenware and glassware. Business all over the country is steadily improving as a result of the new tariff law, and money is becoming more plentiful in the hands of the people at large. Naturally there will be an increased demand for all sorts of manufactured goods and, as existing legislation is more favorable to the native products than to the importer. home made goods will eventually displace foreign products on the market. We may, therefore, reasonably expect many new factories to be established as soon as prosperity becomes general, and them in order, besides being very beamong these factories will be found not | coming ornaments." a few concerns devoted to the production of crockery and glass."

The market review of the crockery industry is as follows:

"The output at the potteries continues unusually large and shipments are in in the last two months has been very pronounced, and sales for November promise to break the record for that month. At least three-fourths of the pottery manufacturing establishments have been working day and night for some time past, and in the decorating departments they have been doing this with facilities and working forces greatly augmented over those of previous years. American pottery is evidently right in the swim just now, and deservedly so, for manufacturers are putting out the best ware they ever did, with practically no limit to the variety of elegant shapes and decorations. A boating stage in the Ohio comes in good heat to the stranger: time for the potteries at East Liverpool, Steubenville, Wheeling and other potteries making places along the stream, as a good deal of the heavier classes of goods are shipped by steamer when possible, and the potters will be glad to avail themselves of the present chance of sending it that way."

NEW SCHEDULES

The Railroad Company Make a Slight

The winter schedules of the Cleveland and Pittsburg road were received in this city yesterday morning on the 8:46 train. The only change made is that train 335 due here at 8:46 will arrive at 8:17 or 29 minutes earlier. A few changes in the running time of freights have been made. The schedules go into effect Sunday.

Thanksgiving Weddings.

M. M. Coates and Miss Frankie M. Williams were married yesterday at the First M. E. church parsonage by Rev. J. M. Huston. The young people are well known in the city.

Lyle Jackson and Miss Dora C. Powell were united in marriage Wednesday evening at the Commercial House.

Finished the Work.

Surveyor Farmer yesterday morning finished the work of locating the lines on Lisbon road and returned vesterday afternoon to his home in Lisbon. He will at once commence the work of compiling a report of the river road survey and will file it with council just as soon as possible. It will take several days to finish the report.

HAD NO "SCOLDING LOCKS."

Tried to Oblige a Friend, but She Got Angry About It.

Some people are absolutely devoid of tact. One of these is a youthful matron who, wishing to make her very dearest friend-another young matron-a birthday present, decided on the purchase of a handsome pair of shell side combs.

Nothing could have been more appropriate for the blond tresses of her friend, and the giver felt much pleased with her selection when she went to call on her and give her the pretty or-

"I thought you would like them," she said when her friend had admired them and thanked her rapturously, "you will find them so handy to fasten up your scolding locks."

"What do you mean?" asked her friend in a surprised tone.

"Did you never hear of scolding locks? They are the short ends of your hair that are always flying loose. They bother one so much, but side combs keep

"So you think I have scolding locks reliable. -then I must be a scold. Thanks aw fully, dear, but I don't believe I need any combs. Keep them for your own scolding outfit." And the face of the "dearest friend" clouded with anger.

proportion all round. The improvement dear." And the donor of the combs snatched them up and carried them home, where she had a fit of hysteries, and all because she needed a little tact. - Chicago Times-Herald.

Chided Mr. Rockefeller.

A newly engaged clerk in the employ of the Standard Oil company was sent to work in a room that contained a health lift. Every morning at about 10 o'clock, when this clerk was particularly busy with figures, a small, black mustached man, quiet and diffident in manner, entered, said "Good morning," walked on tiptoe to the corner and exercised for a quarter of an hour. It became a bore to the clerk, who at last one day remarked with considerable

"How do you expect me to do my work properly while you are fooling heavy daily work to do and who was with that blasted machine? I'm getting tired of it. Why don't you put it where it won't worry a person to death?"

"I am very sorry it annoys you," said the stranger, flushing. "I will have it removed at once."

A porter took it away within an hour. A few days later the clerk was sent for by Mr. Flagler, whom he found in earnest conversation with the small, black mustached man. The latter smiled at seeing him, gave Flagler some instructions and left the room.

"Will you tell me who that gentleman is?" the young man asked, a light beginning to break upon him. "That was Mr. Rockefeller," was the

It was the clerk's first acquaintance with the head of the great corporation by which he was employed. -Ohio State

Eating In Mexico.

Journal.

Mexico is a land where people like to eat and eat a good deal. The dinner table is well spread, and there is n abundance Food is served in courses and often many of them. A common bill of fare in thousands of houses at noon will be: Soup, called caldo, or broth; rice, or macaroni, known as sopa; baked and stuffed tomatoes and artichokes, a most delicious vegetable; two kinds of meat, often chicken and a roast, or chops and steaks; fried potatoes, salad, beans, which always appear; fruit and several kinds of sweets and then coffee. Everything comes on separately, served by a boy or maid. This is a very usual repast and is frequently varied with fish from Vera Cruz or the fresh water lakes. Red wine and pulque are usual table drinks --Cor. Boston Herald.

The People's Cyclopedia

Is the Only Reference Work Complete to Date, It is the most handsomely illustrated. It is the cheapest and sold on the easiest terms. Sold only by subscription.

ROGERS, O., August 25, 1896.

Mr. B. L. Teel, Agent People's Cyclopedia:

Dear Sir: I have examined with care The People's Cyclopedia, published by Eaton & Mains, and consider it superior to all other cyclopedias. I have a modern cyclopedia of forty volumes which I consider inferior to the "People's" in every respect. I know of no cyclopedia so clear, concise and complete, and one which so thoroughly recommends itself. It gives me pleasure to speak a word in its behalf. I am yours respectfully.

Louis T. Farr, Attorney and Counselor at Law.

East Liverpool, Ohio, November 24, 1897. Having used the People's Cyclopedia, published by Eaton & Mains, for several years, I can say, that it is an excellent reference work. The articles are concise and thoroughly Very respectfully,

R. E. RAYMAN, Superintendent of Public Instruction.

LISBON, Ohio, May 4, 1897. I have examined the People's Cyclopedia, published by Eaton & Mains, and find it "Very well, just as you like. Goodby, clear and concise, yet comprehensive, also up to date in its articles. It covers a large field for a work so inexpensive. I heartily recommend the work to teachers and all who want a ready-reference Cyclopedia. I do not know of any similar work for the money that will furnish an equal amount of reliable information.

A Cure For Indolence.

Sugar will keep you from getting lazy. At least that is what a medical authority says who has been making some recent interesting experiments on the source of muscular exertion. He administered a liquid containing 30 grains of sugar to a person who had kept in ignorance of the nature of the experiment being tried upon him. On the days when the sugar was omitted it was observed that the laborer was unable to accomplish so much work and that he had less ease in doing it than on the days when he ate the sugar. It is said by some that a person who habitually eats sweets has great muscular endurance. - New York Tribune.

This is an extremely painful disease, often lasting for weeks when only the ordinary remedies are used. Those who have suffered from Sore Mouth can best understand the value of a remedy by the use of which the worst case of Sore Mouth is

INSTANTLY RELIEVED.

This is just what Tonsiline, that wonderful Sore Throat remedy, does. Not only does the first dose give relief, but again a very few doses are given the worst Sore Mouth is

NEWS REVIEW.

RETAIL TRADE IS GOOD

The Department Stores Are Rapidly Devouring

THE SMALL CROCKERY CONCERNS

New York Should Become a Great Center For the Manufacture of Crockery and Glassware-The Market Review Shows That the Output Is Large.

The New York letter to the China, Glass and Lamps this week says:

"The retail trade in earthen ware, glass and lamps is in a healthy condition, particularly in the big department stores. As a matter of fact, the small concerns of old times, where nothing is sold except crockery, table glassware, lamps, globes, etc., have been almost entirely wiped out in the line mentioned. In the entire territory of the Greater New York the number of small crockery stores can be almost counted on one's fingers. It is the old Biblical story modernized: the fat kine have got rid of their rivals, the lean kine, by the simple process of devouring them."

Continuing, the writer states that there is no reason why New York should not become a great center for the manufacture of pottery and glassware, but says:

"Pittsburg will very likely continue to hold its pre-eminent position as a glass manufacturing center, and Trenton and East Liverpool will retain their importance in the pottery industry, but it is not probable that New York, where such splendid opportunities exist, will remain long in the background in respect to the manufacture of earthenware and glassware. Business all over the country is steadily improving as a result of the new tariff law, and money is becoming more plentiful in the hands of the people at large. Naturally there will be an increased demand for all sorts of manufactured goods and, as existing legislation is more favorable to the native products than to the importer, home made goods will eventually displace foreign products on the market. We may, therefore, reasonably expect many new factories to be established as among these factories will be found not a few concerns; devoted to the production of crockery and glass."

The market review of the crockery industry is as follows:

"The output at the potteries continues unusually large and shipments are in proportion all round. The improvement | dear." in the last two months has been very pronounced, and sales for November promise to break the record for that month. At least three-fourths of the pottery manufacturing establishments have been working day and night for some time past, and in the decorating departments they have been doing this with facilities and working forces greatly augmented over those of previous years. American pottery is evidently ly busy with figures, a small, black right in the swim just now, and deservedly so, for manufacturers are putting out the best ware they ever did, with practically no limit to the variety of elegant shapes and decorations. A boating stage in the Ohio comes in good heat to the stranger: time for the potteries at East Liverpool, Stenbenville, Wheeling and other potteries making places along the stream, as a good deal of the heavier classes of goods are shipped by steamer when possible, and the potters will be glad to avail themselves of the present chance of sending it that way."

NEW SCHEDULES

The Railroad Company Make a Slight Change.

The winter schedules of the Cleveland and Pittsburg road were received in this city yesterday morning on the 8:46 train. The only change made is that train 335 due here at 8:46 will arrive at 8:17 or 29 minutes earlier. A few changes in the running time of freights have been made. The schedules go into effect Sunday.

Thanksgiving Weddings.

HAD NO "SCOLDING LOCKS."

Tried to Oblige a Friend, but She Got Angry About It.

Some people are absolutely devoid of tact. One of these is a youthful matron who, wishing to make her very dearest friend-another young matron-a birthday present, decided on the purchase of a handsome pair of shell side combs.

Nothing could have been more appropriate for the blond tresses of her friend, and the giver felt much pleased with her selection when she went to call on her and give her the pretty ornaments.

"I thought you would like them," she said when her friend had admired them and thanked her rapturously, "you will find them so handy to fasten up your scolding locks."

"What do you mean?" asked her friend in a surprised tone.

"Did you never hear of scolding locks? They are the short ends of your hair that are always flying loose. They bother one so much, but side combs keep soon as prosperity becomes general, and them in order, besides being very becoming ornaments."

"So you think I have scolding locks -then I must be a scold. Thanks aw fully, dear, but I don't believe I need any combs. Keep them for your own And the face of the scolding outfit. "dearest friend" clouded with anger.

And the donor of the combs snatched them up and carried them home, where she had a fit of hysterics, and all because she needed a little tact. - Chicago Times-Herald.

Chided Mr. Rockefeller.

A newly engaged clerk in the employ of the Standard Oil company was sent to work in a room that contained a health lift. Every morning at about 10 o'clock, when this clerk was particularmustached man, quiet and diffident in manner, entered, said "Good morning," walked on tiptoe to the corner and exercised for a quarter of an hour. It became a bore to the clerk, who at last one day remarked with considerable

"How do you expect me to do my work properly while you are fooling with that blasted machine? I'm getting tired of it. Why don't you put it where it won't worry a person to death?"

"I am very sorry it annoys you," said the stranger, flushing. "I will have it removed at once.

A porter took it away within an hour. A few days later the clerk was sent for by Mr. Flagler, whom he found in earnest conversation with the small, black mustached man. The latter smiled at seeing him, gave Flagler some instructions and left the room.

"Will you tell me who that gentleman is?" the young man asked, a light beginning to break upon him.

"That was Mr. Rockefeller," was the

NEWS REVIEW.

THE UPPER YUKON.

WHAT CAPTAIN RAY REPORTS ABOUT ALASKAN PROSPECTS.

Chance of a New Route Into the Interior Via the Upper River-The Yukon as a Trade Route-The Estimated White Pop-

In order to realize actual facts of the tate of affairs along the Yukon the folowing extract from the report from Captain P. H. Ray of the Eighth infantry, U. S. A., is worth while read ing. The report is dated Fort Yukon, Sept. 15, 1897:

The Yukon and its tributaries are the great routes of travel and must be for some time to come the highways for the transportation of supplies for the people of our territory and British North America, and while the immigration will be by various routes the people once in the territory will be compelled to follow the waterways, owing to the absence of all animal transportation, except dogs, in the winter.

"With steamers and barges of proper construction and draft the capacity of the Yukon is limited only to the number of vessels engaged in the work, and should the south pass of the delta be found to be navigable the open season

CAPTAIN P. H. RAY.

will be much extended, the routes from the States shortened by nearly 300 miles and the dangerous traverse for river beats from St. Michael's to the mouth of the Ahpoon pass avoided.

"As I learn from the miners that horses were used to advantage in transporting supplies from Circle City to the Birch Creek mines during the summer and are now in use in and around Dawson, I see no good reason why they cannot be successfully employed in the interior at all seasons, especially south of the Yukon and in the valley of the to the south of us. Tananah. For this reason I have asked that six Canadian horses be supplied the new post if established and recommend that the department of the interior be requested to send to the post next winter 100 reindeer for winter use.

"Of the settlements within our territory, but few, if any, can be called per. seductive Manhattan cocktail. manent, as new interests will necessitate many changes. Outside of St. Michael's the North American Transportation and Trading company has a store at Circle City. The missions at Kudlik, Anvik, Nulato, Tananah and Fort Yukon are simply native settlements, aside from the priests and sisters engaged in the work. The Alaska Commercial company has stores at Andreasfky, Nulato, Nukukahyet (Tananah),

Rampart City (Minook) and Circle City. "The white settlements are Circle City and Rampart City, the first 1,200 and the second 977 miles from St. Michael's. Circle City is practically abandoned. The principal mining camps are Forty Mile, Birch Creek and Minook Creek. Rampart City had a population of about 350 on the 7th instant, which includes those in the mining camp 12 miles away. . I counted 70 tents, 1 store and 10 huts. The people were getting out logs, whipsawing timber and new cabins were going up rapidly. The city (?) of Weare I found represented by four spruce logs crossed as a foundation for a cabin; population, 0. It is located three-quarters of a mile below the Alaska Commercial company's store at Nukukahyet. This is a central location, being practically at the head of navigation for river boats drawing more than five feet of water, and is opposite and a little below the mouth of the Tananah river. With the development of the territory it will become an important center commercially and politically.

be predicted from geographical conditions, as they will necessarily follow the mineral development and nearly all these evolved from placer discoveries district is worked out. The great lack of sufficient food supply has checked nearly all developments for this winter. I did not have time to visit the mines at Minook and cannot speak as to their value. I saw over \$300 in nuggets and The storm king comes over the mountain's dust alleged to have been taken out of a ten foot hole on one claim, which claim was sold for \$5,000. Many miners coming down from the Klondike are stopping there and many coming into the territory by this route will stop rather than winter here, where there is no chance to work.

"Owing to the dense growth of forest and moss the country is one of the But list to the pledge of his herald's call: most difficult in the world to prospect and the work of development will be slow. I have talked with many experi- —Callie Bonney Marble in Chicago Times-Her enced miners, who all agree in baving

discovered many valuable lodes of low grade ore, but the present high price of SPIRITS STRIKE GAS. provisions bars the working of any placers or ledges that do not pay more than an ounce per man per day.

"Up to the time the boats failed to pass the bar at this point I estimated that from the boundary to the sea there were about 1,200 people, not including those stranded at St. Michael's. The only lines of communication are by the waters of the Yukon and its tributaries, which are open from the last days of May until from the 1st to the 15th of October. There is no regular communication between the mining camps during the winter, and no mail facilities between Circle City and St. Michael's during the same period.

"I am reliably informed by Mr. Prevost, the Episcopal minister at the mouth of the Tananah, and others that there is a practical route from the Tananah across the divide to the head of Cook's inlet via the head of Copper river; that Indians pass to and fro, formation proves correct, I believe pack animals or wheeled transportation could be placed on this route in the summer and a better and shorter route opened to the mines in our own territory. From all I can ascertain I am now of the opinion that as soon as the development of the territory will justify this will be the shortest and most practicawith the open sea. With rail communication from the head of Cook's inlet to the Tananah the commerce of the whole Yukon valley could be controlled by routes lying wholly in our own territory.

"Should I be able to obtain a sufficient number of serviceable dogs I will attempt the exploration of this country during the coming winter, or make it my first work should I remain in the territory. There is another route which leaves the Tananah about 300 miles above its mouth and strikes westerly across the divide to the head of the Kushkokwim. Communication can be month earlier than with St. Michael's. This route should be explored as soon as practicable. We have ample supplies, are in good health and condition and will devote the winter to the work of exploration."-Philadelphia Press.

THE SEDUCTIVE COCKTAIL.

Minister Loomis Is to Introduce the Drink to Venezuelans.

The cocktail, that great American institution which has brought comfort to many a jaded stomach on both sides of the Atlantic, is about to be introduced

the United States in the capacity of whole movement. The Approach of Winter.

His mantle of snow seen shimmering afar,

Scattering his crystals o'er sleeping earth And touching with frost each glistening star.

While the fruit and flower 'neath his icy kiss Have lost their autumnal beauty and bloom And comes from the grave, where our roses lie, But a memory sweet in the winter gloom, For dead and buried are summer time joys, 'Neath a winding sheet of the snow king's

weave. "No vision of death let your spirits grieve, For, safe 'neath the pall of the frost king deep Your roses and lilies of summer but sleep."

MRS. ALDRICH OF MENDOTA, ILLS., LOCATES WELLS.

She Excited the People of Princeton, Ills., by Her Wonderful Power-Mysterious "Guide" Said to Direct Her-She Works While In a Trance.

People in Princeton, Ills., are greatly excited about a clairvoyant who is discovering oil wells through the assistance of an "Indian guide." She is Mrs. H. B. Aldrich of Mendota, Ills., and her successes have been so remarkable as to convince prospectors that she has some power which is away out of the ordinary run of everyday affairs. Mrs. Aldrich has already located 11 wells out of a total of 12 trials. Gas has been discovered within the city limits of Princeton by Mrs. Aldrich's clairvoyance or trading, during the winter. If this in- the ability of her "guide" to see underground or by some other power the exact nature of which is not and perhaps never will be known.

The Princeton well was found by Mrs. Aldrich on the property of the creamery firm of Wood & Vedder. The began Nov. 25, and after three days of eagerly, "What did you see in Boston?" location was made on Oct. 26. Drilling labor and anxiety gas was found at a ble route for railroad communication depth of 130 feet and yielding a pressure of six pounds. On the following Monday the pressure had increased to nine pounds, which is enough to not only furnish heat, light and propelling powfor a number of dwellings in that vicin-

The Princeton find is the result of that spirit of curiosity which is so necessary to progress at times. Considering the wide prevalence of natural gas in this county, several gentlemen of this city recently decided to form a club for the purpose of promoting investigation. After a little discussion an organization of 23 was formed, with the simple plan had by sea to the mouth of this river a of starting with a fund of \$115, or \$5 apiece, this money to go toward locating and developing gas wells. If the party on whose ground the well was located should succeed in finding gas, he was then to assume all the expense of obtaining it, and the original sum was to go toward finding gas on the property of some other member of the club. Of course if gas failed to appear after two or three attempts the club would naturally dissolve, as the expense incurred in locating and drilling for the article in two or three cases would exhaust the fund.

The smallness of the sum set apart by to our fiery neighbors on the continent this club and the general limitations imposed were all owing to a peculiar The young diplomat who represents contingency that entered into their clairvoyant and were anxious to test her themselves, and their fund, though small, was sufficient for that purpose. Joe and Fred Albrecht of Ohio station, Frank B. Loomis, an Ohio newspaper of the well located for John Isaacs of of here, and the satisfaction given them. Here were ten locations made by her, each one yielding gas. The club decided that she should locate for them also. True, she had marked out two other locations which had failed, owing, as she explained, to her directions not having been obeyed—one for William Sutton of Malden and one for Henry Wells, living near Dover. But 10 successes out of 12 ventures were considered a safe proportion from even a strict business Loomis has always been prominent in point of view. So she was sent for, with the result already mentioned.

Mrs. Aldrich is a large, comely woman of about 45, pleasant and quiet in her manner. She has followed clairvoyancy for 23 years, having begun for the medical treatment of her two children, who were delicate. From this beginning she has developed through different stages and is now especially prominent for her gas well locations and her

The locations of the wells are made while she is in a trance, during which she follows the direction of what she calls a "guide," tracing the gas veins to a converging point or place of strongest pressure, which is indicated to her by a sheet of flame appearing before her eyes. Here she directs a stake to be driven, and here the drill-generally a two inch drill-is set to work. When gas is struck, the hole is piped.

The veins located by her are generally from 130 to 200 feet from the surface of the ground and have been opened by F. H. Conant & Co. of Dover, who have drilled after all her locations. Sometimes the veins yield intermittently, but usually they settle down to a steady flow. Occasionally a well needs cleaning out, in which case it often yields even better than at first.

Some have thought, and others still think, that because this is a gas area therefore any one can locate gas at ran. dom, but the facts show that many have made a number of attempts before finding gas; some have failed altogether, while occasionally some one strikes it at the first attempt. He usually stops at that one.

of any one having made one successful attempt after another except that achieved by Mrs. Aldrich. Her record man in Lamoille, who has drilled his hadn't back pedaled."-Harper's Baground so full of holes that there is ger

Mrs. Aldrich on being called located the wells for each of these gentlemen, succeeding at the first attempt. For Harvey Coddington she made four successive locations, finding gas each time. She certainly is an expert as well as a mystery, whatever may be the conclusion as to the source of her wonderful power. - Chicago Times-Herald.

Lowell and the Boy.

An author whose home was in a country town had planned a day's outing in Boston. He intended to transact a little business, see a few sights and crown the day by attending a reception given to James Russell Lowell. He had made up his mind, after some consideration, to take his little son with him for an early glimpse of distinguished society. Of course the small boy, who had never before been in the city, was delighted, and in due time the pair set out.

On their return the other members of the family clustered about them, and as they unwound the little fellow from his heavy furs and mufflers he was asked

"We thaw," came the answer in a breathless burst, "the anaconda and the fat woman and the Living Herculethe."

They had been to a museum of curiosities, as well as to an author's reception, and-according to youthful rules er for the creamery, but heat and light of precedence-Mr. Lowell naturally ranked a long way after this renowned trio.

Nevertheless the boy bore away two distinct memories of the poet, though in the first it is probable that the Living Hercules had his share, having doubtless suggested the topic of conversation, which was physical strength.

Mr. Lowell had narrated to his open mouthed, small auditor an anecdote of a prizefighter who, in danger of being run over in a crowded London thoroughfare, had knocked down and killed a horse with a blow between the eyes.

His other recollections are of his own pleased embarrassment and the insistent cordiality of the poet—so often spoken of as overpunctilious and fastidiouswho would shake hands with him, extending for the purpose a hand faultlessly gloved in gray kid, which clasped without reluctance the child's hesitating, fuzzy paw, clad in a woolen mitten, sticky with recent molasses candy. -Youth's Companion.

Tennyson and the Peerage.

Three times the baronetcy was offered to Tennyson, and as many times he refused it. When, therefore, one day in 1883, Mr. Gladstone said to the laureate's son that for the sake of literature he wished to offer his father the higher distinction of a barony, there was grave doubt about its acceptance. The only difficulty which the prime minister thought insurmountable was the possible insistence by Tennyson on his right to wear his wide awake in the house of lords. Tennyson was so well beyond the mere flattery of an offer of the peerage that he took the friendly urgence of Mr. Gladstone with great calmness, and at first was not to be moved from his determination to remain plain Mr.

Tennyson to the end of his days. He was finally persuaded, however, that as the foremost representative of literature in England he ought not to put aside a distinction which would mark the formal recognition of the place and function of literature in the life of a great people. "I cannot but be touched," he wrote to Mr. Gladstone, "by the friendliness of your desire that this mark of distinction should be conferred on myself, and I rejoice that you, who have shown such true devotion to literature by pursuing it in the midst of what seems to most of us overwhelming and all absorbing business, should be the first thus publicly to proclaim the position which literature ought to hold in the world's work."—Hamilton W. Mabie in Atlantic.

Fiction's Unjust Treatment of the Rich.

A grievance that has been treated very injudiciously in many works of fiction is the relation of the rich to the poor. Absolutely false ideas as to how the rich get their wealth and what they do with it when they get it have been persistently floated by novelists, for whom (as for the journalist) a millionaire is always fair game. It is not worth while to expend any sympathy upon the millionaires in this matter, as they can struggle along under a considerable weight of vituperation, but the rest of us cannot afford to be put continually in a false attitude toward wealth. Hatred or envy of the rich is not a pleasant companion for our leisure hours, and the poorer we are the less pleasant company it is likely to be. It interferes with our working to the best advantage and cuts us off from opportunities of accumulating the very wealth that might ease our pains. - Droch in Ladies' Home Journal.

NAVAL PIGEON SERVICE.

Professor Marion's Report on the Military Homing Pigeon In Europe.

Professor Marion of the Naval academy recently submitted to the secretary of the navy a report of an inspection made by him of the military and private homing pigeon system of Belgium and other European countries. Belgium is the recognized center of the homing pigeon, says Professor Marion, and it is to be found there in the highest stage of perfection. Pigeon races constitute the national sport of the Belgians and are encouraged by the distribution of prizes by the king and by subsidies. These races stimulate the pigeon fanciers to the extent of obtaining almost incredible results, such as flights of the birds from Ireland, Spain, southern France and even Italy to Belgium, over distances of many hundreds of miles and attaining the phenomenal speed of 1,700 meters per minute for short distances.

Professor Marion says that he secured a number of birds from several of the famous lofts for the naval pigeon service in America as well as diplomas showing their work. These birds have been distributed among the various naval lofts for the purpose of improving the

Professor Marion believes that many of the first class lighthouses, naval stations and lightships should be provided with cots. The Germans, he says, have an excellent pigeon service in connection with their lighthouse system. He thinks that the various states might be asked to operate some of these new stations, which in time of war are expected to render inestimable service. The whole Atlantic coast would thus be connected and constant communication had at any

time with a fleet patrolling the coast. The principal military loft of Belgium, he says, contains about 100 birds, two-thirds of which are under constant training, the whole system being under control of the engineers of the army. At sea, in case of urgent necessity, he believes that the birds might be flown even during a fog, as the fog is often low, and the birds, rising above it, may be able to reach their destination. Experiments of flying the birds at night, especially during moonlight, have been successful.

The report says that in most of the continental messenger pigeon systems the messages are inserted in a quill, which is fastened to one of the feathers of the bird. In Great Britain the messages are attached to the leg by wrapping the paper around it and securing it with an elastic band.

The question of color seems not to be considered paramount in Belgium homing pigeons. The pigeons are bred for flying and not for color. Any bird that works well is kept and bred from, be its color what it may. Professor Marion says that the greatest desiderata in a homing pigeon are the strength of wing and the breadth of the flight feathers, of which there should be ten, without which the bird is useless for messenger work.—New York Sun.

SPARROWS KILLED SKUNK.

Flock of Three Hundred Attacked It and Tore It to Shreds.

Mr. F. Abel of Freeport, N. Y., sent the following communication, interesting to all lovers of natural history, to the Brooklyn Eagle recently:

"While hunting in the northern part of Long Island a few days ago I saw one of the most peculiar fights that I ever had the luck to witness. I was after rabbits and was walking along near a rail fence when my attention was suddenly attracted by an immense swarm of sparrows which were flying from one side of the fence to the other, twittering with all their might. They were somewhat above me, so, running up nearer, I tried to find the cause of the trouble. It showed itself in the shape of a large skunk, which was darting from one side of the fence to the other, the sparrows following, picking at him savagely when

they got the chance. "They did not seem to mind my presence at all, and this dodging and attacking was kept up for about five minutes, when suddenly the skunk crossed to my side of the fence and started across a big lot with the evident intention of getting to a thick wood that lay on the other side. He had made perhaps half way when the entire flock of sparrows, numbering at least 300, pounced on him. The skunk fought well, but to no purpose, for in less than a minute he was torn to shreds."

Hunters Peppered Her Hat.

Word was recently received from Shoholo, Pike county, Pa., regarding the narrow escape from death by shooting of Miss Lavigne, who, while traveling along the road, was shot twice by hunters named Bigley and Broffet, who in the brush mistook the feathers on the girl's hat for a partridge. Sixteen shot struck the young lady, but only a few badly spent pellets penetrated her corsets, the most of the shot sticking fast in the tough garment.-Pittsburg Dispatch.

Novel Fishing.

It is said that the Dutch have an ingenious way of attracting fish. They fill a bottle partly full of water and then add wiggling fish and bugs, and after that sink it near where the fishhook is floating. When the fish in the stream see it, they gather around it to learn the meaning and are thus easily caught.

THE UPPER YUKON.

WHAT CAPTAIN RAY REPORTS ABOUT ALASKAN PROSPECTS.

Chance of a New Route Into the Interior Via the Upper River-The Yukon as a Trade Route-The Estimated White Pop-

In order to realize actual facts of the tate of affairs along the Yukon the fol-Captain P. H. Ray of the Eighth infantry, U. S. A., is worth while read ing. The report is dated Fort Yukon, Sept. 15, 1897:

The Yukon and its tributaries are the great routes of travel and must be or some time to come the highways for the transportation of supplies for the people of our territory and British North America, and while the immigration will be by various routes the people once in the territory will be compelled to follow the waterways, owing to the absence of all animal transportation, except dogs, in the winter.

"With steamers and barges of proper construction and draft the capacity of the Yukon is limited only to the number of vessels engaged in the work, and should the south pass of the delta be found to be navigable the open season

CAPTAIN P. H. RAY.

will be much extended, the routes from the States shortened by nearly 300 miles and the dangerous traverse for river beats from St. Michael's to the mouth of the Ahpoon pass avoided.

"As I learn from the miners that horses were used to advantage in transporting supplies from Circle City to the Birch Creek mines during the summer and are now in use in and around Dawson, I see no good reason why they cannot be successfully employed in the interior at all seasons, especially south of the Yukon and in the valley of the next winter 100 reindeer for winter use.

"Of the settlements within our territory, but few, if any, can be called per- seductive Manhattan cocktail. manent, as new interests will necessitate many changes. Outside of St. Michael's the North American Trans-Kudlik, Anvik, Nulato, Tananah and Fort Yukon are simply native settlements, aside from the priests and sisters engaged in the work. The Alaska Commercial company has stores at Andreasfky, Nulato, Nukukahyet (Tananah),

Rampart City (Minook) and Circle City. "The white settlements are Circle City and Rampart City, the first 1,200 and the second 977 miles from St. Michael's. Circle City is practically abandoned. The principal mining camps are Forty Mile, Birch Creek and Minook Creek. Rampart City had a population of about 350 on the 7th instant, which includes those in the mining camp 12 miles away. . I counted 70 tents, 1 store and 10 huts. The people were getting out logs, whipsawing timber and new cabins were going up rapidly. The city (?) of Weare I found represented by four spruce logs crossed as a foundation for a cabin; population, 0. It is located three-quarters of a mile below the Alaska Commercial company's store at Nukukahyet. This is a central location, being practically at the head of navigation for river boats drawing more than five feet of water, and is opposite

be predicted from geographical condi- Louis Globe-Democrat. tions, as they will necessarily follow the mineral development and nearly all these evolved from placer discoveries will be ephemeral and abandoned as the district is worked out. The great lack of sufficient food supply has checked nearly all developments for this winter. I did not have time to visit the mines at Minook and cannot speak as to their value. I saw over \$300 in nuggets and The storm king comes over the mountain's dust alleged to have been taken out of a ten foot hole on one claim, which claim Was sold for \$5,000. Many miners coming down from the Klondike are stopping there and many coming into the than winter here, where there is no

chance to work. "Owing to the dense growth of forest and moss the country is one of the But list to the pledge of his herald's call: most difficult in the world to prospect and the work of development will be slow. I have talked with many experienced miners, who all agree in baving ald.

discovered many valuable lodes of low grade ore, but the present high price of SPIRITS STRIKE GAS. provisions bars the working of any placers or ledges that do not pay more than an ounce per man per day.

"Up to the time the boats failed to pass the bar at this point I estimated were about 1,200 people, not including those stranded at St. Michael's. The only lines of communication are by the waters of the Yukon and its tributaries, which are open from the last days of May until from the 1st to the 15th of wing extract from the report from October. There is no regular communication between the mining camps during the winter, and no mail facilities between Circle City and St. Michael's

during the same period. "I am reliably informed by Mr. Prevost, the Episcopal minister at the mouth of the Tananah, and others that there is a practical route from the Tananah across the divide to the head of Cook's inlet via the head of Copper formation proves correct, I believe pack animals or wheeled transportation could be placed on this route in the summer and a better and shorter route opened From all I can ascertain I am now of the opinion that as soon as the development of the territory will justify this will be the shortest and most practicawith the open sea. With rail communithe Tananah the commerce of the whole Yukon valley could be controlled by routes lying wholly in our own territory.

"Should I be able to obtain a sufficient number of serviceable dogs I will attempt the exploration of this country during the coming winter, or make it my first work should I remain in the territory. There is another route which leaves the Tananah about 300 miles above its mouth and strikes westerly Kushkokwim. Communication can be had by sea to the mouth of this river a month earlier than with St. Michael's. This route should be explored as soon as practicable. We have ample supplies, are in good health and condition and will devote the winter to the work of exploration."-Philadelphia Press.

MRS. ALDRICH OF MENDOTA, ILLS., LOCATES WELLS.

that from the boundary to the sea there She Excited the People of Princeton, Ills., by Her Wonderful Power-Mysterious "Guide" Said to Direct Her-She Works While In a Trance.

People in Princeton, Ills., are greatly excited about a clairvoyant who is discovering oil wells through the assistance of an "Indian guide." She is Mrs. H. B. Aldrich of Mendota, Ills., and her successes have been so remarkable as to convince prospectors that she has some power which is away out of the ordinary run of everyday affairs. Mrs. Aldrich has already located 11 wells out of a total of 12 trials. Gas has been discovered within the city limits of Princetrading, during the winter. If this in- the ability of her "guide" to see under- early glimpse of distinguished society. ground or by some other power the exact nature of which is not and perhaps never will be known.

The Princeton well was found by to the mines in our own territory. Mrs. Aldrich on the property of the creamery firm of Wood & Vedder. The location was made on Oct. 26. Drilling began Nov. 25, and after three days of labor and anxiety gas was found at a ble route for railroad communication depth of 130 feet and yielding a pressure of six pounds. On the following Moncation from the head of Cook's inlet to day the pressure had increased to nine pounds, which is enough to not only furnish heat, light and propelling power for the creamery, but heat and light of precedence-Mr. Lowell naturally for a number of dwellings in that vicin-

The Princeton find is the result of that spirit of curiosity which is so necessary to progress at times. Considering the wide prevalence of natural gas in this county, several gentlemen of this city recently decided to form a club for the purpose of promoting investigation. across the divide to the head of the After a little discussion an organization of 23 was formed, with the simple plan of starting with a fund of \$115, or \$5 apiece, this money to go toward locating and developing gas wells. If the party on whose ground the well was located should succeed in finding gas, he was then to assume all the expense of obtaining it, and the original sum was to go toward finding gas on the property of some other member of the club. Of course if gas failed to appear after two or three attempts the club would naturally dissolve, as the expense incurred in locating and drilling for the article in two or three cases would exhaust the fund.

The smallness of the sum set apart by this club and the general limitations imposed were all owing to a peculiar The young diplomat who represents contingency that entered into their small, was sufficient for that purpose. Joe and Fred Albrecht of Ohio station, Frank B. Loomis, an Ohio newspaper of the well located for John Isaacs of cations which had failed, owing, as she explained, to her directions not having with the result already mentioned.

When the fish in the stream see it, they gather around it to learn the meaning and are thus easily caught.

NEITHER SIDE SCORED

But the Twin Cities Came Near It In the Last Half.

BETHANY COLLEGE OUTPLAYED

The Visitors Strengthened With Steubenville Players, but at No Time Did They Come Near Making a Touchdown-The Home Team Surprised Their Rooters.

The football game yesterday afternoon between the Twin Cities and Bethany college was very largely attended, and was one of the best of the season, neither side scoring.

The visitors were strengthened by the addition of Humble, Brayfogle and Laughlin, of the Steubenville eleven, but they were unable to do anything with the strong line of the home team, who surprised their most ardent admirers by the fine game they played. Their work was much better than that of Bethany, and had there been five minutes more to play the home team would have undoubtedly scored.

Bethany won the toss, and Curtis kicked off. The ball was caught by D. McLane, who returned the punt, and it was downed in the center of the field. Bethany then gained two yards on center bucks, but lost the ball on downs. Gossett went through the center for six yards, and Herbert carried the ball around left end for a gain of 12 yards. They then hit the center for six yards and lost two on the attempt to go around right end. The ball was lost on downs and Bethany gained 121/2 yards on an end run, but immediately lost three yards and Curtis punted. Hall caught the punt and kicked, but it was blocked by Swaney and rolled over Liverpool's goal line, but Woods fell on it for a touchback. The ball was brought out to the 25 yard line and two yards were lost on a right end run. Hall then bucked center for three yards and Liverpool lost on downs. Bethany then made six yards on mass play and went around the end for 10 yards, being downed on Liverpool's 10 yard line. They then tried a center play and fumbled. Woods got the ball and gained nine yards before he was tackled. Herbert went around the end for 10 yards and nine yards were made on center play, the first half ending with the ball in the center of

The second half Stoffel kicked off to Bethany's ten yard line, and Booth was downed without gaining an inch. They were held for two downs and Cartis Hall fumbled and Bethany got the ball. They were held and punted again for 20 yards, and Hall caught the ball and fell on it. Twin Cities then began to play a fast game. Seven yards were went around the left end for 18 yards. They gained 20 yards on five downs and a mistake in the signals lost them two yards. Herbert then went around the end for 12 yards. Two yards were then lost and Herbert gained three yards around the end, carrying the ball out of bounds. The ball was taken in 15 yards and Hall carried the ball through the center for nine yards. When time was called the game closed with the ball on Bethany's eight yard line. The lineup: TWIN CITIES Pos. BETHANY D.McLane.....l. e......Curtis H. McCurran.....l. t.Breyfogle Stoffel......l. g......Humble Burchard.....Fowler Connor.....r. g......Cheek Little......r. t.......Carman T. McLane.....r. e..........Chapline Gossett.....Booth Herbert......l. h.....Swaney Woods.....Strickley Hall.....Laughlin

Referee, Snediker; umpire, Brockett; linesmen, Reeves and Fitzgerald. Notes.

The work of Hall and Gossett in hitting the center was a feature of the game.

Had the Twin Cities commenced playing fast earlier in the game they would have won, as they had their opponents thoroughly tired out.

The record of the home team for the year is as follows: Defeated by New Castle 22 to 0 and 10 to 0 and by Wheeling Tigers 24 to 0. Defeated Wellsville 10 to 0, Nashua Athletic club of Pittsburg 8 to 0 and played Vanport 6 to 6.

Have Left For the West.

Mr. and Mrs. Hitchcock, who have been guests of Reverend Reed, of Wheeling, for some time, left that place last night for St. Louis, where they will make their future home. Mrs. Hitchcock, it will be remembered, is the daughter of Rev. and Mrs. O. S. Reed, of this city.

The high school Wednesday at noon paid off the last \$100 due on their piano.

Ureat Unloading Sale

Boots, Shoes and Rubbers.

This is no Dissolution Sale, but our Cut Prices will make some people feel like dissolving. What WE advertise is the clean truth of a bad matter:

Big Stock, Warm Fall Weather, Unloading Sale at Knockout Prices.

* PLAIN TALK ABOUT SHOE BUYING AND SHOE SELLING: *

We make the bold, unqualified assertion that The Unusual Dry Season This Fall Leaves no firm in East Liverpool ever has or ever will give their customers, year in WE ARE OVERSTOCKED! and year out, season after season, the actual, genuine value for their money that we do.

NO SIR!

They can't do it, for the simple reason that they pay more for their goods than we. They are doing the best they can, of coursebut reason for yourself:

Suppose two men went to the same manufacturer to buy. wants one hundred pairs of shoes, the other, twenty thousand pairs; punted to the center of the field and which one buys at the lowest price? The one who buys twenty thousand pairs, every time.

We are like the man buying the twenty thousand pairs.

Canton, O., 106 Public Square.

Our East Liverpool store is one of seven retail stores operated by made on center plays and D. McLane us, under different firm names, located as follows:

> Canton, Ohio, 118 E. Tuscarawas St. Massillon, O., 6 E. Main St. Akron, O., 121 S. Howard St. Alliance, O., 436 E. Main St. Tiffin, O., 66 Washinton St. East Liverpool, O., 219 Market St., in the Diamond.

> Also, a wholesale house at Canton, occupying a floor space of 17,000 square feet, and doing business throughout several states.

Every one of these retail stores does a large business, and it takes hundreds of thousands of pairs of shoes to keep them stocked up. No firm in Pittsburg, New York, Chicago, or any other city, buys goods lower in price than we do. How, then, can you expect dealers who buy in a SMALL way to meet our qualities and prices in footwear?

Come to us and buy GOOD Shoes for LITTLE money.

It In the Last Half.

BETHANY COLLEGE OUTPLAYED

The Visitors Strengthened With Steubenville Players, but at No Time Did They Come Near Making a Touchdown-The Home Team Surprised Their Rooters.

The football game yesterday afternoon between the Twin Cities and Bethany college was very largely attended, and was one of the best of the season, neither side scoring.

The visitors were strengthened by the addition of Humble, Brayfogle and Laughlin, of the Steubenville eleven, but they were unable to do anything with the strong line of the home team, who surprised their most ardent admirers by the fine game they played. Their work was much better than that of Bethany, and had there been five minutes more to play the home team would have undoubtedly scored.

Bethany won the toss, and Curtis kicked off. The ball was caught by D. McLane, who returned the punt, and it was downed in the center of the field. Bethany then gained two yards on center bucks, but lost the ball on downs. Gossett went through the center for six yards, and Herbert carried the ball around left end for a gain of 12 yards. They then hit the center for six yards and lost two on the attempt to go around right end. The ball was lost on downs and Bethany gained 121/2 yards on an end run, but immediately lost three yards and Curtis punted. Hall caught the punt and kicked, but it was blocked by Swaney and rolled over Liverpool's goal line, but Woods fell on it for a touchback. The ball was brought out to the 25 yard line and two yards were lost on a right end run. Hall then bucked center for three yards and Liverpool lost on downs. Bethany then made six yards on mass play and went around the end for 10 yards, being downed on Liverpool's 10 yard line. They then tried a center play and fumbled. Woods got the ball and gained nine yards before he was tackled. Herbert went around the end for 10 yards and nine yards were made on center play, the first half ending with the ball in the center of the field.

The second half Stoffel kicked off to but reason for yourself: Bethany's ten yard line, and Booth was downed without gaining an inch. They were held for two downs and Curtis punted to the center of the field and Hall fumbled and Bethany got the ball. They were held and punted again for 20 yards, and Hall caught the ball and fell on it. Twin Cities then began to play a fast game. Seven yards were went around the left end for 18 yards. They gained 20 yards on five downs and a mistake in the signals lost them two yards. Herbert then went around the end for 12 yards. Two yards were then lost and Herbert gained three yards around the end, carrying the ball out of bounds. The ball was taken in 15 yards and Hall carried the ball through the center for nine yards. When time was called the game closed with the ball on Bethany's eight yard line. The lineup: TWIN CITIES Pos. D.McLane.....l. e......Curtis H.
